PREFACE

The following policies of Unified School District (USD) 350 are the result of a combined effort of the staff at the Kansas Association of School Boards, the Board of Education and district staff.

KASB has written the policy model and integrated the appropriate policies and procedures being used. Upon the completion of the first and second draft, KASB staff consulted with the board and selected district staff members to arrive at the final draft. This final draft was then adopted by the board.

Understanding the Policy System

Policies: principles adopted by the school board to chart a course of action. They tell WHAT is wanted and may include also WHY and HOW MUCH. They should be broad enough to provide the administration with flexibility and guidance in handling the day-to-day issues which arise. They also should be narrow enough to give the administration clear guidance.

This philosophy was incorporated into the thinking that produced the model and guided the board and the district's staff in developing the final, adopted policies.

A binder contains these thirteen sections of policies. These sections are:

- A -- SCHOOL DISTRICT ORGANIZATION**
- B -- SCHOOL BOARD OPERATIONS**
- C -- GENERAL SCHOOL ADMINISTRATION**
- D -- FISCAL MANAGEMENT**
- E -- BUSINESS MANAGEMENT**
- F -- FACILITY EXPANSION PROGRAM**
- G -- PERSONNEL (Licensed and Non-Licensed)**
- H -- NEGOTIATIONS**
- I -- INSTRUCTIONAL PROGRAM**
- J -- STUDENTS**
- K -- GENERAL PUBLIC RELATIONS**
- L -- INTERORGANIZATIONAL RELATIONS**
- M -- RELATIONS WITH OTHER EDUCATION AGENCIES**

The policy system's ultimate success depends on using these policies daily to guide the board, administrators and other staff as a management tool to facilitate school board operations and actions.

The Index

The index is designed to help the user find the subject described in the appropriate policy.

When Using This Manual

Proper use of this manual includes, looking up the subject matter in the index and proceeding to the policy section first. Second, check the table of contents which is found in the front of each policy section. Determine if the desired subject is cross-referenced to any other policy. Proceed to the alpha code in the appropriate section and read the policy. Once this is done, cross-references should also be read.

State Law and Negotiated Contracts

Policies do not contain any statutory language or citations, unless necessary or negotiated contract language. They exist in separate documents which should be consulted as needed. If there is doubt about the subject being considered, guidance should be sought from the superintendent or another administrative staff member.

The board designates the superintendent as its Freedom of Information Officer. The Freedom of Information Officer shall have the authority to establish and maintain a system of records in accordance with the Kansas Open Records Act and other applicable laws. The board further assigns the clerk to handle requests for records and to serve as the custodian of the records. The custodian shall prominently display and distribute or otherwise make available to the public a brochure concerning record access in the form prescribed by the local Freedom of Information Officer.

Types of Records

A public record means any recorded information, regardless of form or characteristics, which is made, maintained, kept by, or in the possession of the district, including those exhibited at public board meetings.

Central Office Records

Records maintained by the superintendent shall include, but may not be limited to, the following: financial, personnel, and property (both real and personal) owned by the district.

Building Records

Records maintained by the building principals shall include, but may not be limited to, the following: activity funds, student records, and personnel records.

(See JR et seq.)

Public Access

All records, except those subject to exception by the Kansas Open Records Act, shall be open to inspection by the general public during regular office hours of any school or the district office. The superintendent will establish procedures for making records available on normal business days when district offices are closed. The district may charge and require advance payment of a fee for providing access to or furnishing copies of public records.

Requests for access to open records shall be made in writing to an official custodian of district records. The official custodian shall examine each request to determine whether the record requested is an open record or is subject to an exception of the Kansas Open Records Act that would allow the record to remain closed. The custodian may also refuse to provide access to a public record or to permit inspection if a request places an unreasonable burden in producing public records or if the custodian has reason to believe that repeated requests are intended to disrupt other essential functions of the district. The custodian shall either grant or deny each request.

If the custodian does not grant the request, the person requesting the record shall receive a written explanation of the reason for the denial within three days of the request, if an explanation is requested. If the requester disagrees with the explanation, the freedom of information officer shall settle the dispute.

Each request for access to a public record shall be acted upon as soon as possible, but not later than the end of the third business day following the date that the request is received. If the request is not acted on immediately, the custodian shall inform the requester, within the three-day window, when and where the open record will be made available.

Each custodian shall file all requests and their dispositions in the appropriate office and make reports as requested by the superintendent or the board.

CN **Records**

Copies of Records

Copies of open records shall be available upon written request, unless otherwise specified in Kansas or federal law. Similarly, the district shall not be required to provide such items or devices which are copyrighted by a person other than the board. Furthermore, nothing in the Kansas Open Records Act requires the district to electronically make copies available by allowing a requestor to obtain copies by inserting, connecting, or otherwise attaching an electronic device provided by the requestor to the computer or other electronic device of the district.

Advance payment of the expense of providing access to or furnishing copies of open records shall be borne by the requestor. Under no circumstances shall the documents be allowed out of their usual building location without approval of the official custodian.

The board may prescribe reasonable fees for providing access to or furnishing copies of public records, subject to the following:

- in the case of fees for copies of records, the fees shall not exceed the actual cost of furnishing copies, including the cost of staff time required to make

the information available and printing fees of 10 cents per page, as applicable;

- In the case of fees for providing access to records maintained on computer facilities, the fees shall include only the cost of any computer services, including staff time required.

Revenue from copying open records will be deposited in the district's general fund.

Disposition

All district office records shall be kept for at least the minimum length of time required by law.

The clerk is designated as the official custodian of all board and district office records maintained by the district. Each building principal is designated as official custodian of all records maintained at the building level. Withdrawal of Bids

Any bid may be withdrawn and/or corrected prior to the scheduled time for opening of bids and no later than two days after the bids have been opened if a non-judgmental error has been made.

Any bid received after the publicized date and time shall not be considered by the board.

Every school transportation provider shall have a valid driver’s license. Such drivers shall have full authority and responsibility for the passengers riding in school vehicles.

Students who have charged the maximum allowance to this account and cannot pay out of pocket for a meal will be provided an alternate meal consisting of a peanut butter, peanut butter alternative, or cheese sandwich and milk.

At least one written warning shall be provided to a student and his/her parent or guardian prior to denying meals for exceeding the district's charge limit. If payment of the negative balance is not received within 5 working days of the maximum charge limit being attained, the debt will be turned over to the superintendent or superintendent's designee for collection in accordance with board policy DP. If the debt is not paid within 10 days of mailing the final notice of the negative account balance under policy DP, it shall be considered bad debt for the purposes of federal law concerning unpaid meal charges.

Payments for school meals may be made at the school or district office. Students, parents, and guardians of students are encouraged to prepay meal costs.

The district will provide a copy of this unpaid meal charges policy to all households at or before the start of school each year and to families and students that transfer into the district at the time of transfer. The terms of this

policy will also be communicated to all district staff responsible for enforcing any aspect of the policy. Records of how and when it is communicated to households and staff will be retained.

Approved:

KASB Recommendation – 2/98; 8/98; 4/07; 6/09; 6/15; 6/19; 6/20; 7/20

The board of education is committed to providing a positive and productive working and learning environment, free from discrimination on the basis of sex, including sexual harassment. The district does not discriminate on the basis of sex in admissions, employment, or the educational programs or activities it operates and is prohibited by Title IX from engaging in such discrimination. Discrimination on the basis of sex, including sexual harassment, will not be tolerated in the school district. Discrimination on the basis of sex of employees or students of the district by board members, administrators, licensed and classified personnel, students, vendors, and any others having business or other contact with the school district is strictly prohibited.

Sexual harassment is unlawful discrimination on the basis of sex under Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964, and the Kansas Act Against Discrimination. All forms of sexual harassment are prohibited at school, on school property, and at all school-sponsored activities, programs, or events within the United States. Sexual harassment against individuals associated with the school is prohibited, whether or not the harassment occurs on school grounds.

It shall be a violation of this policy for any student, employee, or third party (visitor, vendor, etc.) to sexually harass any student, employee, or other individual associated with the school. It shall further be a violation for any employee to discourage a student or another employee from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy. Violation of this policy by any employee shall result in disciplinary action, up to and including termination.

Sexual harassment shall include conduct on the basis of sex involving one or more of the following: (1) A district employee conditioning the provision of an aid, benefit, or service of the district on an individual's participation in unwelcomed sexual conduct; (2) unwelcomed conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's educational program or activity; or (3) sexual assault, dating violence, domestic violence, or stalking.

Sexual harassment may result from verbal or physical conduct or written or graphic material. Sexual harassment may include but is not limited to: verbal harassment or abuse of a sexual nature; pressure for sexual activity; repeated remarks to a person with sexual or demeaning implication; unwelcome touching; or suggesting or demanding sexual involvement accompanied by implied or explicit threats concerning an employee's job status.

The district encourages all victims of sexual harassment and persons with knowledge of such harassment to report the harassment immediately. Complaints of sexual harassment will be promptly investigated and resolved. Any person may make a verbal or written report of sex discrimination by any means and at any time.

(The Superintendent of Schools) has been designated to coordinate compliance with nondiscrimination requirements contained in Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964 regarding discrimination on the basis of sex, and the Kansas Act Against Discrimination. Information concerning the provisions of these Acts, and the rights provided thereunder, are available from the Title IX Coordinator. Inquiries about the application of Title IX to the district may be referred to the Title IX Coordinator; to the Assistant Secretary for Civil Rights at the U.S. Department of

Education, Office of Civil Rights, 400 Maryland Avenue, SW, Washington D.C. 20202-1100, (800)421-3481, or at OCR@ed.gov; or both.

Response to Harassment ComplaintsThe district takes all reports of sexual harassment seriously and will respond meaningfully to every report of discrimination based on sex, including sexual harassment, of which the district has actual knowledge. Employees who believe they have been subjected to sexual harassment should discuss the problem with their immediate supervisor. If an employee's immediate supervisor is the alleged harasser, the employee should discuss the problem with the building administrator or the Title IX Coordinator. All employees receiving reports of alleged sexual harassment shall notify the Title IX Coordinator.

Definitions

The following definitions apply to the district in responding to complaints of sexual discrimination including sexual harassment as defined by Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964, and the Kansas Act Against Discrimination.

The "complainant" means an individual who is alleged to be a victim of conduct that could constitute sexual harassment.

"Dating violence" means violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim where the existence of such a relationship shall be determined based on a consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved.

The "decision-maker" reviews all the evidence and prepares an impartial written responsibility determination as to whether the alleged conduct occurred and provides an opportunity for the parties and their representatives to prepare

written questions to be answered by the other party. The decision-maker shall not be the Title IX Coordinator or investigator.

“Domestic violence” includes crimes of violence committed by a person who is a current or former spouse, partner, person with whom the victim shares a child, or who is or has cohabited with the victim as a spouse or partner, by a person similarly situated to a spouse of the victim under Kansas or applicable federal law, or by any other person against an adult or youth victim having protection from such person’s acts by Kansas or applicable federal law.

A “formal complaint” means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment against a respondent and requesting that the district investigate the allegation of sexual harassment.

The “investigator” is the person who carries out the investigation after the formal complaint is filed and conducts interviews of the witnesses, collects and documents evidence, and drafts an investigative report.

A “respondent” is an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment.

“Sexual assault” means an offense classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation.

“Stalking” means engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others or to suffer substantial emotional distress.

The “Title IX Coordinator” is the individual designated at the district level who has responsibility to coordinate compliance with Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964 regarding discrimination on the basis of sex, and the Kansas Act Against

Discrimination. The Title IX Coordinator's responsibilities include, but are not limited to: developing materials and ensuring professional development occurs for staff involved in Title IX compliance, creating systems to centralize records, gathering relevant data, contacting the complainant (and/or parents or guardians, if applicable) once the district has actual knowledge of alleged sexual harassment, coordinating the implementation of supportive measures, signing a formal complaint to initiate a grievance process, and ensuring any remedies are implemented.

The Title IX Coordinator, any investigator, decision-maker, or any person who facilitates an informal resolution process shall not have a conflict of interest or bias for or against the complainant or respondent. These individuals shall receive training on the definition of sexual harassment; the scope of the education program and activities; how to conduct an investigation, including appeals and informal resolution processes; and how to serve impartially, including by avoiding prejudgment of the facts, conflicts of interest, and bias. Decision-makers shall receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant. Investigators shall receive training on issues of relevance of questions and evidence in order for them to create investigative reports that fairly summarize relevant evidence.

Any employee who witnesses an act of sexual harassment or receives a complaint of harassment from another employee or a student shall report the complaint to their immediate supervisor, building administrator, or Title IX Coordinator. Employees who fail to report complaints or incidents of sexual harassment to appropriate district officials may face disciplinary action. District

officials who fail to investigate and take appropriate corrective action in response to complaints of sexual harassment may also face disciplinary action.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes sexual harassment under the definition outlined above. Unacceptable conduct may or may not constitute sexual harassment, depending on the nature of the conduct and its severity, pervasiveness, and persistence. Behaviors which are unacceptable but do not constitute harassment may also result in employee discipline.

If discrimination or harassment has occurred, the district will take prompt, remedial action to stop it and prevent its reoccurrence.

The Title IX Coordinator shall promptly respond in a meaningful way to any reports of sexual discrimination including sexual harassment of which the district has actual knowledge as follows:

- Contact the complainant within 10 business days and discuss the availability of supportive measures, with or without the filing of a formal complaint, and consider the complainant's wishes as to supportive measures; and
- Inform the complainant of the right to a formal complaint investigation consistent with Title IX and the informal resolution process.

Supportive Measures

The district will treat the complainant and respondent equitably by offering supportive measures. These non-disciplinary and non-punitive measures will be offered as appropriate, as reasonably available, and without cost to the complainant or the respondent. Supportive measures are designed to restore or preserve equal access to the education program or activity without unreasonably

burdening the other party. “Supportive Measures” shall include, but not be limited to, measures designed to protect the safety of all parties, to protect the district’s educational environment, or to deter sexual harassment. These measures may include counseling, extensions of deadlines or course-related adjustments, modifications of work or class schedules, escort services, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring, and other similar measures. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.

The Formal Complaint

No investigation of alleged sexual harassment may occur until after a formal complaint has been filed.

A formal complaint is a document filed by the complainant or signed by the Title IX Coordinator alleging sexual harassment and requesting an investigation. The procedures for filing a formal complaint are as follows:

- At the time of filing a formal complaint, a complainant must be participating in or attempting to participate in the education program or activity of the district concerning which the formal complaint is filed.
- A formal complaint should be filed in writing and contain the name and address of the person filing the complaint. The complaint should briefly describe the alleged violation. Filing of the complaint with the Title IX Coordinator may be done in person, by mail, or by email. If an individual does not wish to file a written complaint, and the matter has not been adequately resolved, the Title IX Coordinator may initiate

the complaint. Forms for filing written complaints are available in each school building office and the central office.

- A complaint should be filed as soon as possible after the conduct occurs, but not later than 180 calendar days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.
- An investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board shall appoint an investigating officer. In other instances, the investigation shall be conducted by a qualified individual designated by the Title IX Coordinator or another individual appointed by the board. The investigation shall be thorough. All interested persons, including the complainant and the respondent, will be afforded an opportunity to submit written or oral evidence relevant to the complaint.

Formal Complaint Notice Requirements

Upon filing of a formal complaint, the district shall provide written notice to the known parties including:

- Notice of the allegations of sexual harassment including sufficient details to prepare a response before any initial interview including:
 - the identities of the parties involved, if known;
 - the conduct allegedly constituting sexual harassment; and
 - the date and location of the alleged incident, if known.
- The district's investigation procedures, including any informal resolution process;

- A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility will be made by the decision-maker at the conclusion of the investigation;
- Notice to the parties they may have an advisor of their choice and may inspect and review any evidence; and
- Notice to the parties of any provision in the district's code of conduct or policy that prohibits knowingly making false statements or knowingly submitting false information.

If, in the course of an investigation, the investigator decides to investigate allegations about the complainant or respondent that are not included in the notice initially provided, notice of the additional allegations shall be provided to known parties.

Formal Complaint Investigation Procedures

To ensure a complete and thorough investigation and to protect the parties, the investigator shall:

- Ensure that the preponderance of the evidence burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the district and not the parties;
- Provide an equal opportunity for the parties to present witnesses and evidence;
- Not restrict either party's ability to discuss the allegations under investigation or to gather and present relevant evidence;
- Allow the parties to be accompanied with an advisor of the party's choice;

- Provide written notice of the date, time, location, participants, and purpose of any interview, meeting, or hearing at which a party is expected to participate;
- Provide the parties equal access to review all the evidence collected which is directly related to the allegations raised in a formal complaint, including the investigative report, and the opportunity to respond to that evidence before a determination is made;
- Be impartial and objectively evaluate all relevant evidence without relying on sex stereotypes;
- Not have conflicts of interest or bias for or against complainants or respondent;
- Not make credibility determinations based on the individual's status as complainant, respondent, or witness.

Formal Complaint Investigation Report

The investigator shall prepare an investigative report that fairly summarizes relevant evidence and share the report with the parties and their advisors for review and response.

Before completing the investigative report, the investigator must send each party and their advisors the investigative report for review and allow the parties 10 days to submit a written response for the investigator's consideration.

The investigator's written report shall include an objective evaluation of all relevant evidence using a preponderance of the evidence standard to determine responsibility.

Decision-Maker's Determination

Upon receiving the investigator's report, the decision-maker must make a determination regarding responsibility and afford each party the opportunity to submit written, relevant questions that the parties want asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions.

The decision-maker must issue a written determination regarding responsibility based on a preponderance of the evidence. The decision-maker's written determination shall:

- Identify the allegations potentially constituting sexual harassment;
- Describe the procedural steps taken, including any notifications to the parties, site visits, methods used to gather evidence, and interviews;
- Include the findings of fact supporting the determination;
- Address any district policies and/or conduct rules which apply to the facts;
- Address each allegation and a resolution of the complaint including a determination regarding responsibility, the rationale therefor, any disciplinary sanctions imposed on the respondent, and whether the remedies are designed to preserve access to the educational program or activity will be provided by the district to the complainant; and
- The procedures and permissible bases for the complainant and/or respondent to appeal the determination.

A copy of the written determination shall be provided to both parties simultaneously.

The range of disciplinary sanctions and remedies may include, but may not be limited to, supportive measures, short term suspension, long term

suspension, expulsion for students, and/or termination for employees. Complainants and respondents shall be treated equitably by providing remedies to a complainant where a determination of responsibility for sexual harassment has been made. The Title IX Coordinator is responsible for the effective implementation of any remedies. If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.

If the investigation results in a recommendation that an employee be suspended with or without pay or terminated, procedures outlined in board policy, the negotiated agreement (as applicable), and/or state law will be followed.

Records relating to complaints filed and their resolution shall be maintained by the Title IX Coordinator for seven years.

The decision becomes final on the date the parties receive the results of an appeal, if any appeal is filed, or on the date the opportunity for an appeal expires.

Appeals

The complainant or respondent may appeal the decision-maker's determination regarding responsibility or a dismissal of a formal complaint, on the following base:

- Procedural irregularity that affected the outcomes;
- New evidence that was not reasonably available at the time that could affect the outcome; and/or
- The Title IX Coordinator, investigator, or decision-maker had a conflict of interest or bias against either party that affected the outcome.

The request to appeal shall be made in writing to the Title IX Coordinator within 20 days after the date of the written determination. Appeals shall be on the record and heard by an attorney, an independent hearing officer appointed by the board, or the board. The appeal decision-maker may not be the Title IX Coordinator, the Investigator, or the decision-maker from the original determination.

The appeal decision-maker will issue a written decision within 30 days after the appeal is filed. The appeal decision-maker will describe the result of the appeal and the rationale for the result.

The appeal decision-maker shall:

- Review the evidence gathered by the investigator, the investigator's report, and the original decision-maker's determination;
- Notify both parties in writing of the filing of an appeal and give them 10 days after the appeal is filed to submit further evidence in writing;
- Not have a conflict of interest or bias for or against complainant or respondent and receive the required training;
- Issue a written decision and the rationale for the decision within 30 days after the appeal is filed;
- Describe the result of the appeal and the rationale for the result in the decision; and
- Provide the written decision simultaneously to both parties and to the Title IX Coordinator.

Informal Resolution Process

At any time during the formal complaint process and prior to reaching a determination regarding responsibility, the district may facilitate an informal

resolution process, such as mediation, that does not involve a full investigation and determination of responsibility.

The informal resolution process may be facilitated by a trained educational professional, consultant, or other individual selected by the Title IX Coordinator under the following conditions:

- The parties are provided a written notice disclosing the allegations, the requirements of the informal resolution process, information on when it may preclude the parties from resuming a formal complaint arising from the same allegations;
- At any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process and resume the investigation of the formal complaint and be informed of any consequences resulting from participating in the informal resolution process;
- The parties voluntarily and in writing consent to the informal resolution process; and
- The informal resolution process cannot be used to resolve allegations that an employee sexually harassed a student.

If the matter is resolved to the satisfaction of the parties, the facilitator shall document the nature of the complaint and the proposed resolution, have both parties sign the documentation and receive a copy, and forward it to the Title IX Coordinator. Within 20 days after the complaint is resolved in this manner, the Title IX Coordinator shall contact the complainant to determine if the resolution of the matter remains acceptable. If the matter is not resolved, or if the individual does not believe the resolution remains acceptable within 20 days after the

informal resolution document is executed, the individual or the Title IX Coordinator may proceed with the formal complaint process.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence. The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or appeal.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

Initiation of a complaint of sexual harassment in good faith will not adversely affect the job security or status of an employee, nor will it affect his or her compensation. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in any investigation, proceeding, or hearing involving sex discrimination including sexual harassment is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including termination of employment.

To the extent possible while still following the above procedures, confidentiality will be maintained throughout the investigation and resolution of a complaint. The desire for confidentiality must be balanced with the district's obligation to conduct a thorough investigation, to provide supportive measures to both parties, to take appropriate corrective action, and to provide due process to the complainant and the respondent.

False or malicious complaints of sexual harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy and the complaint procedures including how to report or file a formal complaint of sex discrimination or sexual harassment shall be posted in each district facility, shall be published in employee handbooks, and on the district's website as directed by the Title IX Coordinator. Notification of the policy may include posting information notices, publishing in local newspapers, publishing in newspapers and magazines operated by the school, or distributing memoranda or other written communications to students and employees. In addition, the district is required to include a statement of nondiscriminatory policy in any bulletins, announcements, publications, catalogs, application forms, or other recruitment materials that are made available to participants, students, applicants, or employees.

KASB Recommendation – 2/98; 8/98; 7/03; 6/04; 4/07; 6/15; 12/18; 06/20; 7/20

The board of education is committed to providing a positive and productive working and learning environment, free from discrimination, including harassment, on the basis of race, color, national origin, or disability. Racial and disability harassment will not be tolerated in the school district. Racial or disability harassment of employees or students of the district by board members, administrators, certified and support personnel, students, vendors, and any others having business or other contact with the school district is strictly prohibited.

Racial harassment is unlawful discrimination on the basis of race, color or national origin under Titles VI and VII of the Civil Rights Act of 1964, and the Kansas Acts Against Discrimination. Disability harassment is unlawful discrimination on the basis of disability under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. All forms of racial and disability harassment are prohibited at school, on school property, and at all school-sponsored activities, programs or events. Racial or disability harassment against individuals associated with the school is prohibited, whether or not the harassment occurs on school grounds.

It shall be a violation of this policy for any student, employee, or third party (visitor, vendor, etc.) to racially harass or harass on the basis of disability any student, employee, or other individual associated with the school. It shall further be a violation for any employee to discourage a student or another employee from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy.

Violations of this policy by any employee shall result in disciplinary action, up to and including termination.

Harassment prohibited by this policy includes racially or disability-motivated conduct which:

- Affords an employee different treatment, solely on the basis of race, color, national origin, or disability, in a manner which interferes with or limits the ability of the employee to participate in or benefit from the services, activities or programs of the school;
- Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of creating a hostile working environment;
- Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of interfering with an individual's work performance or employment opportunities.

Racial or disability harassment may result from verbal or physical conduct or written or graphic material.

The district encourages all victims of racial or disability harassment and persons with knowledge of such harassment to report the harassment immediately. Complaints of racial or disability harassment will be promptly investigated and resolved.

Employees who believe they have been subjected to racial or disability harassment should discuss the problem with their immediate supervisor. If an employee's immediate supervisor is the alleged harasser, the employee should discuss the problem with the building principal or the district compliance coordinator. Employees who do not believe the matter is appropriately resolved through this meeting may file a formal complaint under the district's discrimination complaint procedure in policy KN.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes racial or disability harassment under the definition outlined above. Unacceptable conduct may or may not constitute racial or disability harassment, depending on the nature of the conduct and its severity, pervasiveness and persistence. Behaviors which are unacceptable but do not constitute harassment may also result in employee discipline.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence.

Any employee who witnesses an act of racial or disability harassment or receives a complaint of harassment from another employee or a student shall report the complaint to the building principal. Employees who fail to report complaints or incidents of racial or disability harassment to appropriate school officials may face disciplinary action. School administrators who fail to investigate and take appropriate corrective action in response to complaints of racial or disability harassment may also face disciplinary action, up to and including termination.

Initiation of a complaint of racial or disability harassment in good faith will not adversely affect the job security or status of an employee, nor will it affect his or her compensation. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in any investigation, proceeding, or hearing involving a racial or disability harassment complaint is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including termination from employment.

To the extent possible, confidentiality will be maintained throughout the investigation of a complaint. The desire for confidentiality must be balanced with the district's obligation to conduct a thorough investigation, to take appropriate corrective action or to provide due process to the accused.

False or malicious complaints of racial or disability harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy and related materials shall be posted in each district facility. The policy shall also be published in student, parent and employee handbooks as directed by the district compliance coordinator. Notification of the policy shall be included in the school newsletter or published in the local newspaper annually.

KASB Recommendation – 8/98; 7/03; 4/07; 9/12; 6/15

Any district employee who has reason to know or suspect a child has been injured as a result of physical, mental or emotional abuse or neglect or sexual abuse, shall promptly report the matter to the local Kansas Department for Children and Families (DCF) office or to the local law enforcement agency if the DCF office is not open. Employees may file a report of suspected abuse anonymously to either DCF by phoning 1-800-922-5330 or to local law enforcement officials. The Code for Care of Children also provides civil immunity from prosecution if the report is made in good faith.

The employee making the report will not contact the child's family or any other persons to determine the cause of the suspected abuse or neglect.

DCF or Law Enforcement Access to Students on School Premises

The building principal shall allow a student to be interviewed by DCF or law enforcement representatives on school premises to investigate suspected child abuse and shall act as appropriate to facilitate the agency's access to the child and to protect the student's interests during the process. State law grants the investigating agency the authority to determine whether a school employee may be present while the interview is being conducted, taking into account the child's best interests. If asked to sit in on the interview by the agency representative conducting it, the building principal or designee thereof shall oblige such request in order to provide comfort to the child throughout the process and to facilitate the investigation.

Cooperation Between School and Agencies

Principals shall work with DCF and law enforcement agencies to develop a plan of cooperation for investigating reports of suspected child abuse or neglect. To the extent that safety is not compromised, law enforcement officers

investigating complaints of suspected child abuse or neglect on school property shall not be in uniform.

Reporting Procedure

The employee shall promptly report to the local DCF office or law enforcement if DCF is closed. It is recommended the building administrator also be notified after the report is made.

If the building principal has been notified, the principal shall immediately notify the superintendent that the initial report to DCF has been made. If appropriate, the principal may confer with the school's social worker, guidance counselor or psychologist. At no time shall the principal or any other staff member prevent or interfere with the making of a suspected child abuse report.

If available, the following information shall be given by the person making the initial report: name, address and age of the student; name and address of the parents or guardians; nature and extent of injuries or description of neglect or abuse; and any other information that might help establish the cause of the child's condition.

Any personal interview or physical inspection of the child by any school employee shall be conducted in an appropriate manner with an adult witness present.

State law provides that anyone making a report in good faith and without malice shall be immune from any civil liability that might otherwise be incurred or imposed.

Annual Training

Annual training for all school employees on child abuse and neglect reporting requirements shall be provided, and documentation of the training shall be maintained.

GAAF Emergency Safety Interventions (See GAO, JRB, JQ, and KN)GAAF

The board of education is committed to limiting the use of Emergency Safety Intervention (“ESI”), such as seclusion and restraint, with all students. The board of education encourages all employees to utilize other behavioral management tools, including prevention techniques, de-escalation techniques, and positive behavioral intervention strategies.

This policy shall be made available on the district website with links to the policy available on any individual school pages. In addition, this policy shall be included in at least one of the following: each school’s code of conduct, school safety plan, or student handbook. - Using face-up (supine) physical restraint;
- Using physical restraint that obstructs the student’s airway;
- Using physical restraint that impacts a student’s primary mode of communication;

GAAF **Emergency Safety Interventions**

GAAF-4

- Using chemical restraint, except as prescribed treatments for a student’s medical or psychiatric condition by a person appropriately licensed to issue such treatments; and
- Use of mechanical restraint, *except*:
 - Protective or stabilizing devices required by law or used in accordance with an order from a person appropriately licensed to issue the order for the device;
 - Any device used by a certified law enforcement officer to carry out law enforcement duties; or
 - Seatbelts and other safety equipment when used to secure students during transportation.

Use of Emergency Safety Interventions

ESI shall be used only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to effect such physical harm. Less restrictive alternatives to ESI, such as positive behavior interventions support, shall be deemed inappropriate or ineffective under the circumstances by the school employee witnessing the student’s behavior prior to the use of any ESI. The use of ESI shall cease as soon as the immediate danger of physical harm ceases to exist. Violent action that is destructive of property may necessitate the use of an ESI. Use of an ESI for purposes of discipline, punishment, or for the convenience of a school employee shall not meet the standard of immediate danger of physical harm.

ESI Restrictions

A student shall not be subjected to ESI if the student is known to have a medical condition that could put the student in mental or physical danger as a result of ESI. The existence of such medical condition must be indicated in a written statement from the student's licensed health care provider, a copy of which has been provided to the school and placed in the student's file.

Such written statement shall include an explanation of the student's diagnosis, a list of any reasons why ESI would put the student in mental or physical danger, and any suggested alternatives to ESI. Notwithstanding the provisions of this subsection, a student may be subjected to ESI, if not subjecting the student to ESI would result in significant physical harm to the student or others.

Use of Seclusion

When a student is placed in seclusion, a school employee shall be able to see and hear the student at all times.

All seclusion rooms equipped with a locking door shall be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the seclusion room, or in case of emergency, such as fire or severe weather.

A seclusion room shall be a safe place with proportional and similar characteristics as other rooms where students frequent. Such room shall be free of any condition that could be a danger to the student, well-ventilated, and sufficiently lighted.

Training

All staff members shall be trained regarding the use of positive behavioral intervention strategies, de-escalation techniques, and prevention techniques. Such training shall be consistent with nationally recognized training programs on ESI. The intensity of the training provided will depend upon the employee's position. Administrators, licensed staff members, and other staff deemed most likely to need to restrain a student will be provided more intense training than staff who do not work directly with students in the classroom. District and building administration shall make the determination of the intensity of training required by each position.

Each school building shall maintain written or electronic documentation regarding the training that was provided and a list of participants, which shall be made available for inspection by the state board of education upon request.

Notification and Documentation

The principal or designee shall notify the parent the same day as an incident. The same-day notification requirement of this subsection shall be deemed satisfied if the school attempts at least two methods of contacting the parent. A parent may designate a preferred method of contact to receive the same-day notification. Also, a parent may agree, in writing, to receive only one same-day notification from the school for multiple incidents occurring on the same day.

Documentation of the ESI used shall be completed and provided to the student's parents no later than the school day following the day of the incident. Such written documentation shall include: (A) The events leading up to the incident; (B) student behaviors that necessitated the ESI; (C) steps taken to

transition the student back into the educational setting; (D) the date and time the incident occurred, the type of ESI used, the duration of the ESI, and the school personnel who used or supervised the ESI; (E) space or an additional form for parents to provide feedback or comments to the school regarding the incident; (F) a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future incidents; and (G) email and phone information for the parent to contact the school to schedule the ESI meeting. Schools may group incidents together when documenting the items in subparagraphs (A), (B) and (C) if the triggering issue necessitating the ESIs is the same.

The parent shall be provided the following information after the first and each subsequent incident during each school year: (1) a copy of this policy which indicates when ESI can be used; (2) a flyer on the parent's rights; (3) information on the parent's right to file a complaint through the local dispute resolution process (which is set forth in this policy) and the complaint process of the state board of education; and (4) information that will assist the parent in navigating the complaint process, including contact information for Families Together and the Disability Rights Center of Kansas. Upon the first occurrence of an incident of ESI, the foregoing information shall be provided in printed form or, upon the parent's written request, by email. Upon the occurrence of a second or subsequent incident, the parent shall be provided with a full and direct website address containing such information.

Law Enforcement, School Resource, and Campus Security Officers

Campus police officers and school resource officers shall be exempt from the requirements of this policy when engaged in an activity that has a legitimate law enforcement purpose. School security officers shall not be exempt from the requirements of this policy.

If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint, or mechanical restraint on a student, the school shall notify the parent the same day using the parent's preferred method of contact. A school shall not be required to provide written documentation to a parent, as set forth above, regarding law enforcement use of an emergency safety intervention, or report to the state department of education any law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

Documentation of ESI Incidents

Except as specified above with regard to law enforcement or school resource officer use of emergency safety interventions, each building shall maintain documentation any time ESI is used with a student. Such documentation must include all of the following:

- Date and time of the ESI,
- Type of ESI,
- Length of time the ESI was used,
- School personnel who participated in or supervised the ESI,
- Whether the student had an individualized education program at the time of the incident,

GAAF Emergency Safety Interventions GAAF-9

- Whether the student had a section 504 plan at the time of the incident, and whether the student had a behavior intervention plan at the time of the incident.

All such documentation shall be provided to the building principal, who shall be responsible for providing copies of such documentation to the superintendent or the superintendent's designee on at least a biannual basis. At least once per school year, each building principal or designee shall review the documentation of ESI incidents with appropriate staff members to consider the appropriateness of the use of ESI in those instances.

Reporting Data

District administration shall report ESI data to the state department of education as required.

Parent Right to Meeting on ESI Use

After each incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request such meeting verbally, in writing, or by electronic means. A school shall hold a meeting requested under this subsection within 10 school days of the parent's request. The focus of any such meeting shall be to discuss proactive ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

For a student with an IEP or a Section 504 plan, such student's IEP team or Section 504 plan team shall discuss the incident and consider the need to conduct a functional behavioral assessment, develop a behavior intervention plan, or amend the behavior intervention plan if already in existence.

For a student with a section 504 plan, such student's section 504 plan team shall discuss and consider the need for a special education evaluation. For students who have an individualized education program and are placed in a private school by a parent, a meeting called under this subsection shall include the parent and the private school, who shall consider whether the parent should request an individualized education program team meeting. If the parent requests an individualized education program team meeting, the private school shall help facilitate such meeting.

For a student without an IEP or Section 504 plan, the school staff and the parent shall discuss the incident and consider the appropriateness of a referral for a special education evaluation, the need for a functional behavioral assessment, or the need for a behavior intervention plan. Any such meeting shall include the student's parent, a school administrator for the school the student attends, one of the student's teachers, a school employee involved in the incident, and any other school employees designated by the school administrator as appropriate for such meeting.

The student who is the subject of such meetings shall be invited to attend the meeting at the discretion of the parent. The time for calling such a meeting may be extended beyond the 10-day limit if the parent of the student is unable to attend within that time period. Nothing in this section shall be construed to prohibit the development and implementation of a functional behavior assessment or a behavior intervention plan for any student if such student would benefit from such measures.

Local Dispute Resolution Process

If a parent believes that an emergency safety intervention has been used on the parent's child in violation of state law or board policy, the parent may file a complaint as specified below.

The board of education encourages parents to attempt to resolve issues relating to the use of ESI informally with the building principal and/or the superintendent before filing a formal complaint with the board. Once an informal complaint is received, the administrator handling such complaint shall investigate such matter, as deemed appropriate by the administrator. In the event that the complaint is resolved informally, the administrator must provide a written report of the informal resolution to the superintendent and the parents and retain a copy of the report at the school. The superintendent will share the informal resolution with the board of education and provide a copy to the state department of education.

If the issues are not resolved informally with the building principal and/or the superintendent, the parents may submit a formal written complaint to the board of education by providing a copy of the complaint to the clerk of the board and the superintendent within thirty (30) days after the parent is informed of the incident.

Upon receipt of a formal written complaint, the board president shall assign an investigator to review the complaint and report findings to the board as a whole. Such investigator may be a board member, a school administrator selected by the board, or a board attorney. Such investigator shall be informed of the obligation to maintain confidentiality of student records and shall report the

findings of fact and recommended corrective action, if any, to the board in executive session.

Any such investigation must be completed within thirty (30) days of receipt of the formal written complaint by the board clerk and superintendent. On or before the 30th day after receipt of the written complaint, the board shall adopt written findings of fact and, if necessary, appropriate corrective action. A copy of the written findings of fact and any corrective action adopted by the board shall only be provided to the parents, the school, and the state department of education and shall be mailed to the parents and the state department within 30 days of the board's receipt of the formal complaint.

If desired, a parent may file a complaint under the state board of education administrative review process within thirty (30) days from the date a final decision is issued pursuant to the local dispute resolution process.

Maintaining a drug free work place is important in establishing an appropriate learning environment for the students of the district. Unless otherwise specified in this policy, the unlawful manufacture, distribution, sale, dispensation, possession, or use of a controlled substance is prohibited at school, on or in school district property; and at school sponsored activities, programs, and events. Possession and/or use of a controlled substance by an employee for the purposes of this policy shall only be permitted if such substance was obtained directly, or pursuant to a valid prescription or order issued thereto, from a person licensed by the state to dispense, prescribe, or administer controlled substances and any use is in accordance with label directions.

Alternative I

As a condition of employment in the district, employees shall abide by the terms of this policy.

Employees shall not unlawfully manufacture, distribute, dispense, possess, and/or use controlled substances in the workplace.

Any employee who is convicted under a criminal drug statute for a violation occurring at the workplace must notify the superintendent of the conviction within five days after the conviction. The superintendent shall then ensure that notice of such conviction is given to any granting agency within 10 days of receiving notice thereof.

Within 30 days after the notice of conviction is received, the school district will take appropriate action with the employee. Such action may include, suspension, placement on probationary status, or other disciplinary

action including termination. Alternatively, or in addition to any action short of termination, the employee may be required to participate satisfactorily in an approved drug abuse assistance or rehabilitation program as a condition of continued employment. The employee shall bear the cost of participation in such program. Each employee in the district shall be given a copy of this policy.

This policy is intended to implement the requirements of the federal regulations promulgated under the Drug Free Workplace Act of 1988. It is not intended to supplant or otherwise diminish disciplinary actions which may be taken under board policies or the negotiated agreement.

2. Short term suspension without pay;
3. Long term suspension without pay;

5. Termination or nonrenewal of employment relationship.

Nothing in this policy is intended to diminish the right of the district to take any other disciplinary action. This policy is not intended to change any right, duty, or responsibilities in the current negotiated agreement.

If it is agreed that an employee shall enter into and complete a drug education or rehabilitation program, the cost of such program will be borne by the employee. A list of area drug and alcohol counseling and rehabilitation programs, along with names and addresses of contact persons for the programs, is on file with the board clerk.

All district employees performing job functions which require the employee to maintain a commercial driver's license shall be tested for alcohol and drugs as required by current federal law. Board approved rules and regulations necessary to implement the testing program shall be on file with the clerk.

Each new employee who is required to undergo alcohol and drug testing shall be given a copy of the appropriate district regulations.

The district will participate in workers compensation as required by current statute. The combined workers compensation benefits and salary received under allowed paid leave shall not exceed one full day's pay.

All employees of the district shall be covered by workers compensation. Workers compensation coverage is provided for all employees regardless of assignment, length of assignment, and/or hours worked per day. Benefits are for personal injury from accident or industrial diseases arising out of and in the course of employment in the district.

An injured employee must notify the designated employer's workers compensation coordinator or, if the coordinator is unavailable, his or her supervisor within 20 days of the injury or within 20 days of repetitive trauma in order to be eligible for benefits.

The workers compensation plan will provide coverage for medical expenses and wages to the extent required by statute to those employees who qualify; however, the amount of workers compensation benefits and paid leave benefits shall not exceed a regular daily rate of pay. An employee using paid leave in combination with workers compensation will be charged for one full or partial day of paid leave, as provided for in the applicable leave policy or the negotiated agreement, for each day of absence until the employee's paid leave is exhausted.

Any employee who is off work and receiving workers compensation benefits shall be required to provide the designated workers compensation

coordinator with a written doctor's release before the employee is allowed to return to work. In addition, should the employee be released to return to work by a doctor and fail to do so, all benefits under paid leave shall terminate, and those benefits under workers compensation shall be restricted as provided by current statute.

Whenever an employee is absent from work and is receiving workers compensation benefits due to a work-related injury or is receiving district paid disability insurance, the employee may use available paid leave to supplement the workers compensation or district paid disability insurance payments. Workers compensation benefits and FMLA benefits provided in a board approved plan shall run concurrently if both are applicable.

In no event shall the employee be entitled to a combination of workers compensation benefits, district paid disability insurance, and salary in excess of his/her full salary. Available paid leave may be used for this purpose until 1) available paid leave benefits are exhausted; 2) the employee returns to work; 3) the employee is released by the medical provider and a position is offered by the employer, but the employee declines to return to work; or 4) employment is terminated. Paid leave shall be calculated on a prorata amount equal to the percentage of salary paid by the district.

Testing

The board, through its designated workers compensation coordinator, may require employees who claim or are involved in an accident in the course of employment to submit to a post-injury chemical test. This includes instances where the district administration or workers compensation coordinator has actual knowledge of an accident whether the employee has or has not requested medical treatment. If an employee refuses to submit to an employer requested post-injury

chemical test, the employee forfeits all related workers compensation benefits as provided in K.S.A. 44-501(b)(1)(E). Chemical test collection, labeling, and performance shall meet the requirements found in K.S.A. 44-501(b)(3).

GARID Military Leave

GARID

Employees are entitled to military leave under the Uniformed Services Employment and Reemployment Rights Act of 1994. The Act applies to military service that began on or after December 12, 1994 or military service that began before December 12, 1994 if the employee was a reservist or National Guard member who provided notice to the employer before leaving work.

Reemployment rights extend to persons who have been absent from work because of “service in the uniformed services.” The uniformed services consist of the following military branches:

- Army, Navy, Marine Corps, Air Force or Coast Guard.
- Army Reserve, Navy Reserve, Marine Corps Reserve, Air Force Reserve or Coast Guard Reserve.
- Army National Guard or Air National Guard.
- Commissioned corps of the Public Health Service.
- Any other category of persons designated by the President in time of war or emergency.

“Service” in the uniformed services means duty on a voluntary or involuntary basis in a uniformed service, including:

- Active duty.
- Active duty for training.
- Initial active duty for training.
- Inactive duty training.
- Full-time National Guard duty.
- Absence from work for an examination to determine a person’s fitness for any of the above types of duty.

The employee may be absent for up to five (5) years for military duty and retain reemployment rights. There are, however, exceptions which can exceed the five (5) year limit. Reemployment protection does not depend on the timing, frequency, duration or nature of an individual’s service. The law enhances protections for disabled veterans including a requirement to provide reasonable

GARID Military Leave

GARID-2

accommodations and up to two (2) years to return to work if convalescing from injuries received during service or training.

The returning employee is entitled to be reemployed in the job that they would have attained had they not been absent for military service, with the same seniority, status and pay, as well as other rights and benefits determined by **LAW**. If necessary, the employer must provide training or retraining that enables the employee to refresh or upgrade their skills so they can qualify for reemployment. While the individual is performing military service, he or she is deemed to be on a furlough or leave of absence and is entitled to the non-seniority rights accorded other individuals on non-military leaves of absence. Individuals performing military duty of more than 30 days may elect to continue employer sponsored health care for up to 18 months at a cost of up to 102 percent of the full premium. For military service of less than 31 days, health care coverage is provided as if the individual had never left. All pensions which are a reward for length of service are protected.

Individuals must provide advance written or verbal notice to their employers for all military duty. Notice may be provided by the employee or by the branch of the military in which the individual will be serving.

Notice is not required if military necessity prevents the giving of notice; or, if the giving of notice is otherwise impossible or unreasonable.

Accrued vacation or annual leave may be used (but is not required) while performing military duty. The individual's timeframe for returning to work is based upon the time spent on military duty.

TIME SPENT ON MILITARY DUTY	RETURN TO WORK OR APPLICATION FOR REEMPLOYMENT
Less than 31 days:	Must return at the beginning of the next regularly scheduled work period on the first full day after release from service, taking into account safe travel home plus an eight (8) hour rest period.
More than 30 but less than 181 days:	Must submit an application for reemployment within 14 days of release from service.
More than 180 days:	Must submit an application for reemployment within 90 days of release from service.

The individual's separation from service must be under honorable conditions in order for the person to be entitled to reemployment rights. Documentation showing eligibility for reemployment can be required. The employer has the right to request that an individual who is absent for a period of service of 31 days or more provide documentation showing:

- the application for reemployment is timely;
- the five-year service limitation has not been exceeded; and
- separation from service was under honorable conditions.

If documentation is not readily available or does not exist, the individual must be reemployed. However, if after reemploying the individual, documentation becomes available that shows one or more reemployment requirements were not met, the employer may terminate the individual, effective immediately. The termination does not operate retroactively.

Questions should be directed to Veterans' Employment and Training Service, U.S. Department of Labor.

GARID Military Leave

GARID-4

Kansas law also requires reemployment if an individual is called to active duty by the state.

GAT Staff Use of Communication Devices (See IIBG and IIBGC) GAT

The board encourages district employees to use technology, including communication devices, to improve efficiency and safety. The district expects all employees to use communication devices in a responsible manner that does not interfere with the employee's job duties. Employees who violate district policies and procedures governing the use of communication devices may be disciplined, up to and including termination, and may be prohibited from possessing or using communication devices while at work. Communication devices may not be used in any manner that would violate the district's policy on student-staff relations.

Definitions

“Communication device” is defined to include all portable devices that send or receive calls or text messages, allow the retrieval of email, or provide access to the Internet. Communication devices shall include, but may not be limited to cell phones, smart phones, iPads, and tablets.

“Use/Using” for the purposes of this policy mean answering or talking on the phone; sending or responding to a text, e-mail, or other communication; opening and viewing pictures or digital recordings; opening and listening to music or audio communications; accessing social media websites; playing games on such device; continuously checking a communication device; or any activity with a communication device that interferes with the employee’s job duties or appropriate supervision of students.

General Use

The district prohibits employees from using any communication device that interrupts or disrupts the performance of duties by the employee or otherwise interferes with district operations, as determined by the employee's

GAT Staff Use of Communication Devices GAT-2

supervisor. This prohibition applies regardless of whether the communication device used is owned by the employee or provided by the district. Employees are responsible for keeping communication devices secure and, if possible, password protected.

Supervision of students and the provision of academic instruction are priorities in the district, and employees who are responsible for supervising and/or providing academic instruction to students must concentrate on these tasks at all times. Employees shall not use communication devices when they are responsible for supervising students or when their doing so interrupts or interferes with classroom instruction unless any of the following conditions occurs:

- The device is being used to instruct the students being supervised at the time;
- The use is necessary to the performance of an employment-related duty;
- The employee has received specific and direct permission from a supervisor to do so; or
- There is an emergency.

Even when these conditions exist, the employee is responsible for obtaining assistance in adequately supervising students during the approved use so that students are supervised at all times.

Use in Vehicles

Regardless of other provisions of this policy, unless there is an emergency, employees shall not use communication devices when:

- Driving district-provided vehicles;

GAT Staff Use of Communication Devices

GAT-3

- Operating a vehicle in which a student is being transported when the transportation is provided as part of the employee's job; or
- Supervising students who are entering or exiting a vehicle, crossing thoroughfares, or are otherwise attempting to safely reach their destinations.

Even in emergency situations, employees should first take all possible safety precautions before using communication devices. Employees are subject to local, state, and federal laws governing use of cell phones while driving and will be solely responsible for all traffic violation liabilities resulting from their use of a phone while driving.

Use of District-Provided Communication Devices

The district may provide communication devices and service to some employees to assist them in carrying out their employment-related duties on and off district property. Use of a district-provided communication device is a privilege. The superintendent or designee has sole discretion as to which employees will be provided communication devices and may recall any previously issued communication device. Employees do not have any expectation of privacy in district-provided communication devices or any information stored on them, and such devices may be confiscated and searched at any time.

Employees are expected to exercise reasonable care to protect district-provided communication devices from damage or theft and must report any such incidents immediately. The district may require employees to reimburse the district for any damage or theft that was the result of the employee's

negligence. Users of district-provided communication devices must abide by any use limitations included in the district's service contract.

Personal Use of District-Provided Communication Devices

Personal use of district-provided communication devices is permissible as long as the use does not exceed the limits of the applicable plan. An employee whose use exceeds plan limitations will be required to reimburse the district for all expenses beyond those covered by the plan and may have privileges suspended or revoked unless the employee can show that all use was for employment-related duties and the device was not used for personal reasons. The amount of personal use of a communication device or service paid for under E-Rate can be no greater than the cost allocation submitted in the request for the E-Rate discount.

Staff Bring Your Own Device Policy

Use of employees' personal communication devices during work hours shall be restricted to classroom or work-related activities. Such personal communication devices may only be used by the staff member and are not for student use. The security of personal computing devices is solely the responsibility of the staff member. Any loss resulting from damage or theft of personal communication devices in the school setting is not the responsibility of the district.

IA Philosophy

IA

Realizing that individuals live in a complex society, the board is hopeful that each student, in addition to the more academic preparations provided by the public schools, will have the opportunity for basic training in desirable moral and ethical values in preparation for assuming a useful role in society.

It is the board's position that all students should be successful in school. This position is based on four basic premises: (1) all students can learn and succeed; (2) success breeds success; (3) schools control the conditions of success; and (4) clearly defined learner outcomes determine instructional programs and decisions.

The board views that educational process as a comprehensive program which must be undertaken in cooperation with other institutions of our society and will seek to establish and maintain strong ties with parents and community programs.

Goals and Objectives

In prescribing courses of study for students during each year of the district's educational program, the board subscribes to the following goals and objectives.

Academic Development

The academic program will assist students (depending upon their individual needs and interests) to grow intellectually and to think rationally.

Development of Desirable Qualities of Citizenship

Each student will be assisted to use knowledge and skills for perpetuating and improving a democratic society and for developing a respect for the rights, opinions and values of others so that the student may live as a responsible, mature, functional member of the community.

Improved Physical Fitness

The two-fold purpose of physical fitness is to assist the development of healthy minds and bodies and to provide experience in activities which will provide beneficial leisure time activities as adults.

Development of Employment Skills

Because many students will seek employment upon completion of their secondary schooling, all students will be given the opportunity to engage in career-oriented preparation courses.

Development of Moral and Cultural Values

The instructional program will attempt to assist students in understanding the various traditions and mores of the cultures.

Academic Freedom

Academic freedom shall be guaranteed to students, and no arbitrary limitations shall be placed by teachers upon study, investigation, presentation and interpretation of facts and ideas concerning man, human society, the physical and biological world and other branches of learning when pursued in accordance with board policy, rules and regulations or in the absence thereof, administrative approval.

Approved: KASB Recommendation – 9/14

IIBGC Staff Online Activities (See GAF, GBU, IIBG, IIBGA, KGA) IIBGC

Employees are encouraged to use district electronic mail and other district technology resources to promote student learning and communication with parents of students and education-related entities. If those resources are used, they shall be used for purposes directly related to work-related activities. Technology-based materials, activities, and communication tools shall be appropriate for and within the range of the knowledge, understanding, age, and maturity of students with whom they are used.

District employees, including, but not limited to, classroom teachers and extracurricular activity coaches and sponsors, may set up blogs and other social networking accounts using district technological resources and following district policy and guidelines to promote communications with students, parents, and the community concerning school-related activities and for the purpose of supplementing classroom instruction. Social networking sites and other online communication options offering instructional benefits may be used for the purpose of supplementing classroom instruction and to promote communications with students and parents concerning school-related activities.

In order for district employees and activity sponsors to utilize a social networking site for instructional, administrative, or other work-related communication purposes, they shall comply with the following:

- They shall request prior permission from the superintendent or the superintendent's designee.
- If permission is granted, staff members will set up the site following any district guidelines developed by the superintendent and approved by the board.

If the expenditure of district funds is required to complete the

- Guidelines shall specify whether access to the site must be given to school/district administrators and technology staff.
 1. If written parental consent is not otherwise granted through acceptable use policy forms provided by the district, staff shall notify parents of the site and obtain written permission for students to become “friends” of the site prior to the students being granted access. This permission shall be kept on file at the school as determined by the principal.
 2. Once the site has been created, the sponsoring staff member is responsible for the following:
 - Monitoring and managing the site to promote safe and acceptable use and compliance with district policies; and
 - Observing confidentiality restrictions concerning release of personally identifiable student information under state and federal law.

Staff members are discouraged from creating personal social networking accounts to which they invite current or future students to be friends. Employees taking such action do so at their own risk. All employees shall be subject to disciplinary action if their conduct relating to use of technology or online resources violates this policy or other applicable board policy, statutory, or regulatory provisions governing employee conduct or the protection of student record information; or if it impairs the staff member’s job performance

or effectiveness in the work setting. District staff shall endeavor to protect the health, safety, and emotional well-being of students and confidentiality of student record information both in the school setting and in their online actions. Conduct in violation of this policy, including, but not limited to, conduct relating to the use of technology, social networking, or online resources, may form the basis for disciplinary action up to and including termination from employment.

The parent, guardian, or adult student must complete the district opt-out form for religious objections, stating the specific activity, the portion of the curriculum in which the activity exists, and the reasons for the request. The request may be granted, or denied, or partially granted and partially denied.

This policy shall not be interpreted to allow parents to prevent the dissemination of information which parents find religiously objectionable. Rather, this policy only extends to actual participation by their child in an activity, the performance of which is contrary to the child's religious teachings.

A parent or guardian seeking to opt-out their child from activities contrary to the child's religious teachings must complete the district's Activity Participation Opt-Out Form regarding religious objections which is available in the board office. These student policies are designed to prevent misunderstanding by students about their rights and responsibilities. The ideas and recommendations of students shall be considered when adopting policies, rules, and regulations governing the conduct of students and their rights and responsibilities.

All student handbooks shall be consistent with board policy, approved by the board, and adopted, by reference, as a part of these policies and regulations.

Approved: 2/16

KASB Recommendation—7/96; 4/07; 12/15

JAA Equal Educational Opportunities (See GAAA)

JAA

It is the policy of the board to offer an educational program which attempts to meet the needs of the students of the district. School personnel will be encouraged to utilize the suggestions of students in the development and formulation of policies, rules, and regulations which are directly related to student concerns. Administrators and teachers, in developing curriculum and activity program recommendations for the consideration of the board, shall give a high priority to the meeting of individual student needs in the overall context of school concerns.

Approved: KASB Recommendation-9/14

JB Attendance Records (See JBC, JBD, and JBE)

JB

Daily attendance records shall be maintained for each student in each school. The primary responsibility for recording attendance shall be assigned to teachers using forms prescribed by the superintendent. A cumulative attendance record for each student shall also be maintained.

The superintendent shall include attendance data in an annual report to the board. Attendance problems shall be reported to the board as necessary.

Resident Students

A “resident student” is any child who has attained the age of eligibility for school attendance and lives with a parent or a person acting as a parent who is a resident of the district. Children who are “homeless” as defined by Kansas law and who are located in the district will be admitted as resident students. For purposes of this policy, “parent” means the natural parents, adoptive parents, step-parents, and foster parents. For purposes of this policy, “person acting as a parent” means a guardian or conservator, a person liable by law to care for or support the child, a person who has actual care and control of the child and provides a major portion of support, or a person who has actual care and control of the child with written consent of a person who has legal custody of the child.

Non-resident Students

Non-resident students are those who do not meet the definition of a resident student. Although the district is not required to admit non-resident students, non-resident students may be admitted to the extent that staff, facilities, equipment, and supplies are available. Other criteria regarding students seeking non-resident student admittance may be considered prior to acting on any annual non-resident student application as specified in this policy, and students residing outside of the state of Kansas may be denied enrollment or continued enrollment based on out-of-state residency.

Non-resident Student Continued Enrollment

Non-resident students admitted to the district shall be evaluated each spring by district administration on the following criteria: whether the student

made academic progress; residence in the state of Kansas; regularity and punctuality of attendance; and disciplinary record, specifically whether the student complied with the student conduct code and avoided 1) major disciplinary problems and/or 2) a large number of referrals for minor disciplinary problems.

Students may be readmitted or denied admission for the next school year based on the results of these evaluations. However, if the student has a disability, the student's ability to meet these expectations shall be considered prior to denying continued enrollment in the district. Parents shall be informed of any administrative decision on non-resident student applications no later than 5 days after initially registered.

Enrollment Restriction

Unless approved in advance by the board, no student, regardless of residency, who has been suspended or expelled from another school district will be admitted to the district until the period of such suspension or expulsion has expired.

Enrollment Procedures

The superintendent shall establish orderly procedures for enrolling all students, including pre-enrollment, changes in enrollment, normal enrollment times, and communication to parents and to the public.

Part-Time Students

Part-time students may enroll with the (board's/administration's) permission if they complete all paperwork in a timely fashion and are in attendance no later than September 20th. Part-time students may be admitted only to the extent that staff, facilities, equipment, and supplies are

available and the students follow the district's student conduct policies and rules.

Identification of Students

All students enrolling in the district for the first time shall provide required proof of identity. Students enrolling in kindergarten or first grade shall provide a certified copy of their birth certificate, a certified copy of the court order placing the child in the custody of the Secretary of the Department for Children and Families, or other documentation which the board determines to be satisfactory. Students enrolling in grades 2-12 shall provide a certified transcript, similar pupil records or data, or other documentary evidence the board deems satisfactory.

The above requirements are not to serve as barriers to immediate enrollment of students designated as homeless or foster children as required by the Every Student Succeeds Act (ESSA) and the McKinney-Vento Act as amended by ESSA. The district shall work with the Department for Children and Families, the school last attended, or other relevant agencies to obtain necessary enrollment documentation.

If proper proof of identity is not provided within 30 days of enrolling, the superintendent shall notify local law enforcement officials as required by law and shall not notify any person claiming custody of the child.

Enrollment Information

The enrollment documentation shall include a student's permanent record card with a student's legal name as it appears on the birth certificate or as changed by a court order and the name, address, and telephone number of the lawful custodian. The records shall also provide proper proof of identity.

JBC **Enrollment**

JBC-4

Assignment to a School Building, Grade Level, or Classes

Unless otherwise provided herein, the superintendent shall assign students to the appropriate building. Any student desiring to attend a school outside the attendance area in which the student resides may do so only with the prior written permission of the superintendent.

If required by law, students placed in foster care or students who are homeless may be educated in their “school of origin” instead of the building corresponding to the assigned attendance area. (For definition of “school of origin”, see regulations for JBCA and JBCB.)

Assignment to a particular grade level or particular classes shall be determined by the building principal based on the educational abilities of the student. If the parents disagree, the principal’s decision may be appealed to the superintendent. If the parents are still dissatisfied with the assignment, they may appeal in writing to the board.

Transferring Credit

In {middle school/junior high} and high school, full faith and credit shall be given to units earned in other accredited schools at the time the student enrolls in the district, unless the principal determines there is valid reason for not doing so. For online credit approval procedures after enrollment, see board policy IIBGB.

Transfers from Non-Accredited Schools

Students transferring from non-accredited schools will be placed by the principal. Initial placement will be made by the principal after consultation with parents or guardians and guidance personnel. Final placement shall be made by the principal based on the student’s documented past educational

experiences and performance on tests administered to determine grade level placement.

JBCA Homeless Students (See EDAA and JBC)

JBCA

The district, in accordance with state and federal law and the Kansas state plan will ensure that homeless children in the school district have access to a free and appropriate public education. Homeless students are individuals who lack a fixed, regular, and adequate nighttime residence. For the purposes of this policy, a student awaiting foster care placement shall not be considered homeless.

Coordinator

The board shall designate a homeless coordinator for the district.

Approved:

KASB Recommendation – 7/03; 4/07; 12/16

Note: The reader is encouraged to review regulations and forms for related information.

The district, in accordance with state and federal law and the Kansas state plan, will ensure that students placed in foster care within the school district have access to a public education in a stable educational environment. For the purposes of this policy and its applicable regulations, “foster care” means 24-hour substitute care for children placed away from their parents and for whom a child welfare agency has placement and care duties.

Point of Contact

The board shall designate an employee to serve as a point of contact for child welfare agencies on behalf of the district.

Approved:

KASB Recommendation – 12/16

When a student is absent from school, an attempt shall be made to contact the parent or guardian to determine the reason for the absence. The principal has been designated to determine the acceptability and validity of excuses presented by the parent(s) or the student.

Procedures for notifying parents on the day of a student’s absence shall be published in the student handbook.

Excused/Unexcused Absences

The definition of “excused absence” includes the following:

- A. Personal illness;
- B. Health-related treatment, examination, or recuperation;
- C. Serious illness or death of a member of the family;
- D. Obligatory religious observances;
- E. Participation in a district-approved or school sponsored activity or course;
- F. Absences prearranged by parents and approved by the principal; and
- G. Students of active duty military personnel may have additional excused absences at the discretion of the principal for visitations relative to leave or deployment.

All absences which do not fit into one of the above categories would be considered an unexcused absence. A student serving a period of suspension or expulsion from the district shall not be considered inexcusably absent.

Significant Part of a School Day

An absence of two or more hours in any school day shall be considered an absence for a significant part of the school day.

Make-Up Work

It is the student's responsibility to obtain make-up assignments from teachers following an excused or unexcused absence.

JBE Truancy (See AEB, IDCE, JBD, and JQ)

JBE

Unless reporting would violate the terms of any memorandum of understanding between the district and the authority to which reports would be made. The building principal shall report students who are inexcusably absent from school to the appropriate authority.

Truancy is defined as any three consecutive unexcused absences, any five unexcused absences in a semester, or seven unexcused absences in a school year, whichever comes first. School year means the period from July 1 to June 30. Students who are absent without a valid excuse for a significant part of any school day shall be considered truant.

Prior to reporting to either the Department for Children and Families (if the student is under 13) or the county or district attorney (if the student is 13 or more years of age but less than 18 years of age), a letter shall be sent to the student's parent(s) or guardian notifying them that the student's failure to attend school without a valid excuse shall result in the student being reported truant.

Waiver of Compulsory Attendance Requirements

Students 16 or 17 years of age may be exempt from compulsory attendance regulations if the parent(s) or person acting as parent attend(s) the counseling session required by law and signs the appropriate consent and waiver form; if the student earns a GED; or if the student is exempt from compulsory attendance requirements pursuant to a court order.

Involvement of Law Enforcement

Law enforcement officers may return truant children to the school where the child is enrolled, to the child's parent or guardian, or to another location designated by the board to address truancy issues.

Reporting to Parents

If a truant child is returned to school by a law enforcement official, the principal shall notify the parent or guardian.

Dual Enrollment Students

Eligible students who are enrolled in a board-approved dual enrollment program shall not be considered truant for the hours during the school day they attend classes at a Regent's university, community college, technical college, vocational educational school, or Washburn University.

JBH **Release of a Student During the School Day**
(See EBB and EBBD)

JBH

Building principals shall not release a student during the school day except upon a written or verbal request from the student's lawful parent or person acting as a parent.

Before releasing a student during the school day, the building principal shall be responsible for verifying the identity of the person seeking release of the student.

If the principal is not satisfied with the identification provided by the person seeking release of a student, the student's release may be refused.

Students shall not be allowed to run personal errands for school employees off school premises during the school day.

Approved: KASB Recommendation-7/96; 4/07

Principals are authorized to search property if there is reasonable suspicion that district policies, rules, or directives are being violated. In addition all lockers shall be subject to random searches without prior notice or reasonable suspicion. All searches by the principal shall be carried out in the presence of another adult witness.

Whenever the principal is mentioned in this policy, it shall be construed to include the superintendent “or designated representative.”

Search of Lockers

Lockers in the district schools shall be under supervision of the principal. Students shall have no expectation of privacy in any school locker.

The combinations and/or keys to all locker locks shall be in the possession of the principal and stored in a place designed to guard against unauthorized access or use. The principal may search any locker at any time without notice. Students shall not place locks, other than those approved by the school, on any locker.

Searches of Property

Any person other than the principal who wishes to search a student’s locker or property shall report to the principal before proceeding. In no event shall any person be permitted to search a student’s locker or property without the principal’s consent unless the person has a valid search warrant authorizing a search.

If a law enforcement officer desiring to search a student’s locker or property has a search warrant, the principal shall permit the search which shall be made in the presence of the principal.

Prohibited items found during the search shall remain in the custody of either the building principal or the law enforcement officer. If any items are turned over to law enforcement officials the principal shall receive a receipt for the items.

Use of Trained Dogs in Conducting Sweeps

At the request of the principal or on a schedule agreed upon by the service provider and the principal, law enforcement officers or licensed private agencies contracting with the school for such service, may use trained dogs on school premises to identify student property which may contain illegal or illicit materials and to determine whether materials, such as drugs, weapons, or other materials which may threaten the general health, welfare, and safety of the students and/or staff are present in the district parking lot, hallways, lockers, classrooms, and/or locker rooms. Students will never be sniffed by the dogs used to conduct the sweeps.

JCABB **Searches of Students** (See JCAB and JCAC)

JCABB

Principals are authorized to search students if there is reasonable suspicion that district policies, rules or directives are being violated. Strip searches shall not be conducted by school authorities. All searches by the principal shall be carried out in the presence of another adult witness.

The student shall be told why a search is being conducted. The student shall be requested to empty items such as, but not limited to, pockets, purses, shoulder bags, book bags and briefcases. The principal shall attempt to call the student's parent/s and may call law enforcement. Items which the principal believes may be connected with illegal activity shall remain in the custody of the principal unless the items are turned over to law enforcement officials. If the student refuses to cooperate, the principal may take disciplinary action and/or seek assistance from law enforcement.

If law enforcement assistance is present, further search of the student shall be with cooperation and assistance of law enforcement officials. The principal shall remain with the student and be present during any search of the student made by law enforcement officials on school property. The principal shall receive and file a receipt for items turned over to law enforcement officials.

If the principal believes a student is in possession of an object which can jeopardize the health, welfare or safety of the student or others, the student shall be removed to a safe location. This determination may be based on any information received by the principal or any member of the faculty or staff.

Written documentation of each search shall be maintained by the principal.

(Whenever the principal is mentioned in this policy, it shall be construed so as to include the superintendent “or designated representative.”)

Approved: 2/16

KASB Recommendation – 7/96; 8/98; 4/07; 12/15

Building administrators, school security officers, and/or others designated by the superintendent may conduct investigations and question students about violation of school rules, the student conduct code, and/or law. Unless otherwise provided herein, such investigators shall not be required to contact the student's parent, guardian, or representative prior to questioning and may request law enforcement, school resource officer(s), and/or school security officer(s) for assistance in conducting the investigations.

If there is reason to believe a violation of a criminal law has been committed, the building administrator, the superintendent's designee, and/or school security officer with authorization of the or the superintendent's designee shall notify the appropriate law enforcement agency of criminal conduct as provided in law and/or board policy and may request further investigation of the alleged violation.

When a school resource officer or campus police officer initiates an investigation of a potential violation of criminal law by a student on the officer's own initiative and not at the behest of a building administrator or the designee of the superintendent, such officer will notify the building administrator and will make a reasonable attempt to contact the student's parent, guardian, or representative prior to initiating questioning.

Coordination with Law Enforcement

School administrators and/or school security officers shall/may meet periodically with local law enforcement officials to discuss the district's policies and rules regarding law enforcement contacts with the district.

Notification of Investigations Conducted by Law Enforcement Officers

When law enforcement officers initiate an investigation involving questioning of a student on a topic unrelated to a report of child abuse or neglect or to the identity of the student during school hours, the building administrator shall make a reasonable attempt to contact a parent, guardian, or representative of the student(s) prior to such questioning. Notification or attempted notification of a parent, guardian, or representative shall be documented by the administrator involved. If a student's parent, guardian, or representative is not present during such questioning of a student, the principal may be present unless otherwise specified in law or board policy.

Child Abuse and Identity Investigations Conducted by Law Enforcement Officers

The administration shall cooperate with law enforcement officers who are conducting investigations of suspected child abuse or neglect or concerning the student's identity. For any investigations concerning known or suspected child abuse or neglect, school staff shall follow the procedures outlined in board policy GAAD instead of the requirements of this policy.

Law Enforcement Initiated Investigations at School

In cases not involving the investigation of known or suspected child abuse or neglect or involving the student's identity, law enforcement officers shall not be permitted to initiate and conduct investigations involving the questioning of students during school hours unless the student's parent or guardian has given the school permission to allow the questioning, a valid warrant has been presented to the building administrator for such purpose, or in

demonstrated emergency situations. If a demonstrated emergency is found, the building administrator shall require identification of law enforcement officials and reasons for the interrogation or investigation of a student. If the building administrator is not satisfied with either the identification or the reason, the request shall not be granted. The building administrator shall attempt to notify the superintendent and the officer's superiors of the reasons for the refusal.

Taking Students Into Custody

Students shall not be voluntarily released by school officials to law enforcement authorities unless the student has been placed under arrest or taken into custody by law enforcement, school resource officers, campus police officers, or Department for Children and Families (“DCF”) authorities pursuant to a child abuse investigation. Except as otherwise specified in this policy, a reasonable effort shall be made to notify the student’s parent, guardian, or representative when students are removed from school for any reason. Parents shall not be notified by school officials when their child is taken into custody by DCF, school resource officers, campus police officers, and/or law enforcement as a result of allegations of abuse or neglect. Except as provided above and/or as specified in a court order or arrest warrant, if a student is taken into custody by a law enforcement officer, school resource officer, or campus police officer, building administrators shall make a good-faith effort to contact the student’s parent or guardian. Notification efforts shall be documented.

When a student has been taken into custody or arrested on school premises without prior notification to the building administrator, the school

staff present shall ask the law enforcement officer to notify the building administrator of the circumstances as quickly as possible and shall themselves contact the building administrator with any information they have regarding the child being taken into custody. School resource officers and campus police officers are expected to contact the building administrator as soon as practicable after taking a student into custody.

Disturbance of School Environment

Law enforcement officers may be requested to assist in controlling disturbances at school and, if necessary, to take students or other persons into custody.

Definition

written questions to be answered by the other party. The decision-maker shall not be the Title IX Coordinator or investigator.

“Domestic violence” includes crimes of violence committed by a person who is a current or former spouse, partner, person with whom the victim shares a child, or who is or has cohabited with the victim as a spouse or partner, by a person similarly situated to a spouse of the victim under Kansas or applicable federal law, or by any other person against an adult or youth victim having protection from such person’s acts by Kansas or applicable federal law.

A “formal complaint” means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment against a respondent and requesting that the district investigate the allegation of sexual harassment.

The “investigator” is the person who carries out the investigation after the formal complaint is filed and conducts interviews of the witnesses, collects and documents evidence, and drafts an investigative report.

A “respondent” is an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment.

“Sexual assault” means an offense classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation.

“Stalking” means engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others or to suffer substantial emotional distress.

The “Title IX Coordinator” is the individual designated at the district level who has responsibility to coordinate compliance with Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964 regarding discrimination on the basis of sex, and the Kansas Act Against

Discrimination. The Title IX Coordinator's responsibilities include, but are not limited to: developing materials and ensuring professional development occurs for staff involved in Title IX compliance, creating systems to centralize records, gathering relevant data, contacting the complainant (and/or parents or guardians, if applicable) once the district has actual knowledge of alleged sexual harassment, coordinating the implementation of supportive measures, signing a formal complaint to initiate a grievance process, and ensuring any remedies are implemented.

The Title IX Coordinator, any investigator, decision-maker, or any person who facilitates an informal resolution process shall not have a conflict of interest or bias for or against the complainant or respondent. These individuals shall receive training on the definition of sexual harassment; the scope of the education program and activities; how to conduct an investigation, including appeals and informal resolution processes; and how to serve impartially, including by avoiding prejudgment of the facts, conflicts of interest, and bias. Decision-makers shall receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant. Investigators shall receive training on issues of relevance of questions and evidence in order for them to create investigative reports that fairly summarize relevant evidence.

Any employee who witnesses an act of sexual harassment or receives a complaint of harassment from another employee or a student shall report the complaint to their immediate supervisor, building administrator, or Title IX Coordinator. Employees who fail to report complaints or incidents of sexual harassment to appropriate district officials may face disciplinary action. District

officials who fail to investigate and take appropriate corrective action in response to complaints of sexual harassment may also face disciplinary action.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes sexual harassment under the definition outlined above. Unacceptable student conduct may or may not constitute sexual harassment, depending on the nature of the conduct and its severity, pervasiveness, and persistence. Behaviors which are unacceptable but do not constitute harassment may provide grounds for discipline under the code of student conduct.

If discrimination or harassment has occurred, the district will take prompt, remedial action to stop it and prevent its reoccurrence.

The Title IX Coordinator shall promptly respond in a meaningful way to any reports of sexual discrimination including sexual harassment of which the district has actual knowledge as follows:

- Contact the complainant within 10 business days and discuss the availability of supportive measures, with or without the filing of a formal complaint, and consider the complainant's wishes as to supportive measures; and
- Inform the complainant of the right to a formal complaint investigation consistent with Title IX and the informal resolution process.

Supportive Measures

The district will treat the complainant and respondent equitably by offering supportive measures. These non-disciplinary and non-punitive measures will be offered as appropriate, as reasonably available, and without cost to the complainant or the respondent. Supportive measures are designed to restore or

preserve equal access to the education program or activity without unreasonably burdening the other party. “Supportive Measures” shall include, but not be limited to, measures designed to protect the safety of all parties, to protect the district’s educational environment, or to deter sexual harassment. These measures may include counseling, extensions of deadlines or course-related adjustments, modifications of work or class schedules, escort services, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring, and other similar measures. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.

The Formal Complaint

No investigation of alleged sexual harassment may occur until after a formal complaint has been filed.

A formal complaint is a document filed by the complainant or signed by the Title IX Coordinator alleging sexual harassment and requesting an investigation. The procedures for filing a formal complaint are as follows:

- At the time of filing a formal complaint, a complainant must be participating in or attempting to participate in the education program or activity of the district concerning which the formal complaint is filed.
- A formal complaint should be filed in writing and contain the name and address of the person filing the complaint. The complaint should briefly describe the alleged violation. Filing of the complaint with the Title IX Coordinator may be done in person, by mail, or by email. If an individual does not wish to file a written complaint, and the matter has not been adequately resolved, the Title IX Coordinator may initiate

the complaint. Forms for filing written complaints are available in each school building office and the central office.

- A complaint should be filed as soon as possible after the conduct occurs, but not later than 180 calendar days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.
- An investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board shall appoint an investigating officer. In other instances, the investigation shall be conducted by a qualified individual designated by the Title IX Coordinator or another individual appointed by the board. The investigation shall be thorough. All interested persons, including the complainant and the respondent, will be afforded an opportunity to submit written or oral evidence relevant to the complaint.

Formal Complaint Notice Requirements

Upon filing of a formal complaint, the district shall provide written notice to the known parties including:

- Notice of the allegations of sexual harassment including sufficient details to prepare a response before any initial interview including:
 - the identities of the parties involved, if known;
 - the conduct allegedly constituting sexual harassment; and
 - the date and location of the alleged incident, if known.
- An explanation of the district's investigation procedures, including any informal resolution process;

- A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility will be made by the decision-maker at the conclusion of the investigation;
- Notice to the parties they may have an advisor of their choice and may inspect and review any evidence; and
- Notice to the parties of any provision in the district's code of conduct or policy that prohibits knowingly making false statements or knowingly submitting false information.

If, in the course of an investigation, the investigator decides to investigate allegations about the complainant or respondent that are not included in the notice initially provided, notice of the additional allegations shall be provided to known parties.

Formal Complaint Investigation Procedures

To ensure a complete and thorough investigation and to protect the parties, the investigator shall:

- Ensure that the preponderance of the evidence burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the district and not the parties;
- Provide an equal opportunity for the parties to present witnesses and evidence;
- Not restrict either party's ability to discuss the allegations under investigation or to gather and present relevant evidence;
- Allow the parties to be accompanied with an advisor of the party's choice;

- Provide written notice of the date, time, location, participants, and purpose of any interview or meeting at which a party is expected to participate;
- Provide the parties equal access to review all the evidence collected which is directly related to the allegations raised in a formal complaint, including the investigative report, and the opportunity to respond to that evidence before a determination is made;
- Be impartial and objectively evaluate all relevant evidence without relying on sex stereotypes;
- Not have conflicts of interest or bias for or against complainants or respondents;
- Not make credibility determinations based on the individual's status as complainant, respondent, or witness.

Formal Complaint Investigation Report

The investigator shall prepare an investigative report that fairly summarizes relevant evidence and share the report with the parties and their advisors for review and response.

Before completing the investigative report, the investigator must send each party and their advisors the investigative report for review and allow the parties 10 days to submit a written response for the investigator's consideration.

The investigator's written report shall include an objective evaluation of all relevant evidence using a preponderance of the evidence standard to determine responsibility.

Decision-Maker's Determination

Upon receiving the investigator's report, the decision-maker must make a determination regarding responsibility and afford each party the opportunity to submit written, relevant questions that the parties want asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions.

The decision-maker must issue a written determination regarding responsibility based on a preponderance of the evidence. The decision-maker's written determination shall:

- Identify the allegations potentially constituting sexual harassment;
- Describe the procedural steps taken, including any notifications to the parties, site visits, methods used to gather evidence, and interviews;
- Include the findings of fact supporting the determination;
- Address any district policies and/or conduct rules which apply to the facts;
- Address each allegation and a resolution of the complaint including a determination regarding responsibility, the rationale therefor, any disciplinary sanctions imposed on the respondent, and whether remedies designed to restore or preserve access to the educational program or activity will be provided by the district to the complainant; and
- The procedures and permissible bases for the complainant and/or respondent to appeal the determination.

A copy of the written determination shall be provided to both parties simultaneously.

The range of disciplinary sanctions and remedies may include, but may not be limited to, supportive measures, short term suspension, long term suspension, expulsion for students, and/or termination for employees. Complainants and respondents shall be treated equitably by providing remedies to a complainant where a determination of responsibility for sexual harassment has been made. The Title IX Coordinator is responsible for the effective implementation of any remedies. If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.

If the investigation results in a recommendation that an employee be suspended with or without pay or terminated, procedures outlined in board policy, the negotiated agreement (as applicable), and/or state law will be followed.

Records relating to complaints filed and their resolution shall be maintained by the Title IX Coordinator for seven years.

The decision becomes final on the date the parties receive the results of an appeal, if any appeal is filed; or on the date the opportunity for an appeal expires.

Appeals

The complainant or respondent may appeal the decision-maker's determination regarding responsibility or a dismissal of a formal complaint, on the following bases:

- Procedural irregularity that affected the outcomes;
- New evidence that was not reasonably available at the time that could affect the outcome; and/or
- The Title IX Coordinator, investigator, or decision-maker had a

conflict of interest or bias against either party that affected the outcome.

The request to appeal shall be made in writing to the Title IX Coordinator within 20 days after the date of the written determination. Appeals shall be on the record and heard by an attorney, an independent hearing officer appointed by the board, or the board. The appeal decision-maker may not be the Title IX Coordinator, the Investigator, or the decision-maker from the original determination.

The appeal decision-maker will issue a written decision within 30 days after the appeal is filed. The appeal decision-maker will describe the result of the appeal and the rationale for the result.

The appeal decision-maker shall:

- Review the evidence gathered by the investigator, the investigator's report, and the original decision-maker's determination;
- Notify both parties in writing of the filing of an appeal and give them 10 days after the appeal is filed to submit further evidence in writing;
- Not have a conflict of interest or bias for or against complainant or respondent and receive the required training;
- Issue a written decision and the rationale for the decision within 30 days after the appeal is filed;
- Describe the result of the appeal and the rationale for the result in the decision; and
- Provide the written decision simultaneously to both parties and to the Title IX Coordinator.

Informal Resolution Process

At any time during the formal complaint process and prior to reaching a determination regarding responsibility, the district may facilitate an informal resolution process, such as mediation, that does not involve a full investigation and determination of responsibility.

The informal resolution process may be facilitated by a trained educational professional, consultant, or other individual selected by the Title IX Coordinator under the following conditions:

- The parties are provided a written notice disclosing the allegations, the requirements of the informal resolution process, and information on when it may preclude the parties from resuming a formal complaint arising from the same allegations;
- At any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process, resume the investigation of the formal complaint, and be informed of any consequences resulting from participating in the informal resolution process;
- The parties voluntarily and in writing consent to the informal resolution process; and
- The informal resolution process cannot be used to resolve allegations that an employee sexually harassed a student.

If the matter is resolved to the satisfaction of the parties, the facilitator shall document the nature of the complaint and the proposed resolution, have both parties sign the documentation and receive a copy, and forward it to the Title IX Coordinator. Within 20 days after the complaint is resolved in this manner, the Title IX Coordinator shall contact the complainant to determine if the resolution

of the matter remains acceptable. If the matter is not resolved, or if the individual does not believe the resolution remains acceptable within 20 days after the informal resolution document is executed, the individual or the Title IX Coordinator may proceed with the formal complaint process.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence. The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or appeal.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies, including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

The filing of a complaint or otherwise reporting sex discrimination including sexual harassment shall not reflect upon the individual's status or grades. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in any investigation, proceeding, or hearing involving sex discrimination, including sexual harassment, is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee.

False or malicious complaints of sexual harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy and the complaint procedures including how to report or file a formal complaint of sex discrimination or sexual harassment shall be posted in each district facility shall be published in student handbooks, and on the district's website as directed by the Title IX Coordinator. Notification of the policy may include posting informational notices, publishing in local newspapers, publishing in newspapers and magazines operated by the school, or distributing memoranda or other written communications to students and employees. In addition, the district is required to include a statement of nondiscriminatory policy in any bulletins, announcements, publications, catalogs, application forms, or other recruitment materials that are made available to participants, students, applicants, or employees.

KASB Recommendation – 7/96; 8/98; 7/03; 4/07; 6/13; 6/15; 12/18; 6/20;

The board of education is committed to providing a positive and productive learning and working environment, free from discrimination, including harassment, on the basis of race, color, national origin, or disability. Discrimination or harassment on the basis of race, color, or national origin (“racial harassment”) or on the basis of disability (“disability harassment”) shall not be tolerated in the school district. Racial or disability harassment of employees or students of the district by board members, administrators, certificated and support personnel, students, vendors, and any others having business or other contact with the school district is strictly prohibited.

Racial harassment is unlawful discrimination on the basis of race, color or national origin under Titles VI and VII of the Civil Rights Act of 1964, and the Kansas Acts Against Discrimination. Disability harassment is unlawful discrimination on the basis of disability under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. All forms of racial or disability harassment are prohibited at school, on school property, and at all school-sponsored activities, programs or events. Racial or disability harassment against individuals associated with the school is prohibited, whether or not the harassment occurs on school grounds.

It shall be a violation of this policy for any student, employee, or third party (visitor, vendor, etc.) to so harass any student, employee or other individual associated with the school. It shall further be a violation for any employee to discourage a student from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy.

Prohibited conduct under this policy includes racially or disability-motivated conduct which:

- Affords a student different treatment, solely on the basis of race, color, national origin, or disability, in a manner which interferes with or limits the ability of the student to participate in or benefit from the services, activities or programs of the school;
- Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of creating a hostile academic environment; or
- Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of interfering with a student's academic performance or ability to participate in or benefit from the services, activities or programs of the school.

Racial or disability harassment may result from verbal or physical conduct or written graphic material.

The district encourages all victims of racial or disability harassment and persons with knowledge of such harassment to report the harassment immediately. The district will promptly investigate all complaints of racial or disability harassment and take prompt corrective action to end the harassment.

Any student who believes he or she has been subject to racial or disability harassment or has witnessed an act of alleged racial or disability harassment, should discuss the alleged harassment with the building principal, another administrator, the guidance counselor, or another certified staff member. Any school employee who receives a complaint of racial or disability harassment from a student shall inform the student of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. If the building principal is the alleged harasser, the complaint shall be reported to the district compliance coordinator. The building

principal shall discuss the complaint with the student to determine if it can be resolved. If the matter is not resolved to the satisfaction of the student in this meeting, the student may initiate a formal complaint under the district's discrimination complaint procedure in policy KN.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes racial or disability harassment under the definition outlined above. Unacceptable student conduct may or may not constitute racial or disability harassment, depending on the nature of the conduct and its severity, pervasiveness and persistence. Behaviors which are unacceptable but do not constitute harassment may provide grounds for discipline under the code of student conduct. The discipline of a student for violation of any provision of the code of student conduct may be enhanced if the conduct is racially or disability motivated.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence.

An employee who witnesses an act of racial or disability harassment shall report the incident to the building principal. Employees who fail to report complaints or incidents of racial or disability harassment to appropriate school officials may face disciplinary action. School administrators who fail to investigate and take appropriate corrective action in response to complaints of racial or disability harassment may also face disciplinary action.

When a complaint contains evidence of criminal activity or child abuse, the compliance coordinator shall report such conduct to the appropriate law enforcement or DCF authorities.

To the extent possible confidentiality will be maintained throughout the investigation of a complaint. The desire for confidentiality must be balanced with the district's obligation to conduct a thorough investigation, to take appropriate corrective action or to provide due process to the accused.

The filing of a complaint or otherwise reporting racial or disability harassment shall not reflect upon the student's status or grades. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in any investigation, proceeding, or hearing involving a racial or disability harassment complaint is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee.

False or malicious complaints of racial or disability harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy and related materials shall be posted in each district facility. The policy shall also be published in student, parent, and employee handbooks as directed by the district compliance coordinator. Notification of the policy shall be included in the school newsletter or published in the local newspaper annually, if applicable.

JGFGB Supervision of Medications (See JGFGBA)

JGFGB

The supervision of medications shall be in strict compliance with the rules and regulations of the board as carried out by district personnel. Diagnosis and treatment of illness and the prescribing of drugs and medicines are not the responsibility of the public schools and are not to be practiced by any school personnel, including school nurses, unless authorized.

In certain circumstances when medication is necessary in order that the student remain in school, the school may cooperate with parents in the supervision of medication that the student will use. However, the medical person authorized to prescribe medication or the parent if it is a non-prescription medication must send a written order to the building administrator who may supervise the administration of the medication or treatment. The parents must submit a written request to the building administrator requesting the school's cooperation in such supervision and releasing the school district and personnel from liability.

School personnel shall not be required to be custodians of any medication except as required by a written order of a licensed medical person or in the case of nonprescription medication when requested in writing by the parents.

The medication shall be examined by the school employee administering it to determine that it appears to be in the original container, to be properly labeled, and to be properly authorized by the written order of licensed medical person. Two containers, one for home and one for school, should be requested from the pharmacist.

Any changes in type of drugs, dosage, and/or time of administration should be accompanied by updated physician and parent permission signatures and a newly labeled pharmacy container.

All medication maintained in the school setting should be kept in a locked container. This includes medication requiring refrigeration.

Medications should be inventoried every semester. Out-of-date stock should be returned to parent or destroyed.

Over-the-counter medications should not be maintained on any school premises, including athletic areas, unless written parent permission to administer is obtained.

The building administrator may choose to discontinue the administration of medication provided that the parents or medical person are notified in advance of the date and the reasons for the discontinuance.

After medication is administered, students should be observed for possible reactions to the medication. This observation may occur at the site of administration or in the classroom as a part of the normal routine.

This policy shall be shared with all local physicians and dentists where practicable. Forms should also be made available to the health care providers in the community.

An individual record should be kept of each medication administered. The record should include student identification, date prescribed, name of medication, time and date(s) administered, signature of person administering and section for comments.

KGA Use of District Personal Property and Equipment

KGA

Requests for use of district equipment by individuals or outside organizations shall be submitted to the superintendent. Any request shall be granted or denied pursuant to guidelines for using equipment developed by the administrator and approved by the board. The superintendent may establish a deposit or requirement for the purchase of insurance for use of school equipment before it is removed from the school grounds or other district property. The deposit will be paid to the principal and will be refunded when the equipment is returned in working order.

For the purposes of this policy, "irreparable damage" shall include any damage severe enough that the cost to repair such equipment would be more than the fair market value of the equipment. If school equipment is returned damaged beyond normal wear and tear of acceptable use, the requestor shall be responsible for the cost to repair such equipment. The district may also require the purchase of insurance.

Personal Use

No district equipment shall be used by staff for personal reasons at school or away from its designated station without the prior approval of principal or superintendent.

Such building policies shall be published annually in the school handbook and shall be posted at the school in a conspicuous place visible to all who enter the premises. Visitors must secure and wear a visitor's pass to enter school buildings during the school day.

Anyone who refuses or fails to leave district buildings, facilities, and/or grounds after being requested to do so by an authorized district employee shall be considered to be trespassing in violation of Kansas law. In such case, the police will be contacted, and arrest and criminal charges may result.

The administration will determine if the individual who has been asked to leave a district building, facility, or grounds is allowed to return in the future. If the individual is not to return in the future, the appropriate "Trespass Notification" is to be sent to the individual.

KN Complaints

KN

(See BCBI, GAAC, GAACA, GAAB, GAAF, IF, IKD, JCE, JGEC, JGECA, and KNA)

The board encourages all complaints regarding the district to be resolved at the lowest possible administrative level. Whenever a complaint is made directly to the board as a whole or to a board member as an individual, it will be referred to the administration for study and possible resolution.

Discrimination against any individual on the basis of race, color, national origin, sex, disability, age, or religion in the admission or access to, or treatment or employment in the district's programs and activities is prohibited. Harassment of an individual on any of these grounds is also prohibited. (Position, address, email address, and phone number of compliance coordinator) has been designated to coordinate compliance with nondiscrimination requirements contained in Title VI of the Civil Rights Act of 1964 regarding discrimination on the basis of sex, Title VII of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, the Personal Responsibility Work Opportunity Reconciliation Act of 1996, and the Food Stamp Act of 1977, as amended. Information concerning the provisions of these Acts, and the rights provided thereunder, are available from the compliance coordinator.

Complaints About Discrimination or Discriminatory Harassment

Complaints of discrimination or discriminatory harassment by an employee, excluding complaints regarding discrimination or harassment on the basis of sex or in child nutrition programs, should be addressed to the employee's supervisor, the building principal, or the district compliance coordinator. Such complaints by a student should be addressed to the building principal, another

administrator, the guidance counselor, or another certified staff member. Any school employee who receives a complaint of such discrimination or harassment from a student shall inform the student of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. If the building principal is the alleged harasser, the complaint shall be reported to the district compliance coordinator. Complaints by any other person alleging such discrimination should be addressed to the building principal or the district compliance coordinator. Except as otherwise provided in this policy regarding complaints of discrimination on the basis of sex or regarding child nutrition programs, complaints about discrimination, including complaints of harassment, will be resolved through the following complaint procedures:

Informal Procedures

The building principal shall attempt to resolve complaints of discrimination or harassment in an informal manner at the building level. Any school employee who receives a complaint of such discrimination or harassment from a student, another employee, or any other individual shall inform the individual of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. The building principal shall discuss the complaint with the individual to determine if it can be resolved. If the matter is resolved to the satisfaction of the individual, the building principal shall document the nature of the complaint and the proposed resolution of the complaint and forward this record to the district compliance coordinator. Within 20 days after the complaint is resolved in this manner, the principal shall contact the complainant to determine if the resolution of the matter remains acceptable. If the matter is not resolved to the satisfaction of the individual in the meeting with the principal, or if the individual does not believe the resolution remains

acceptable, the individual may initiate a formal complaint. If such discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence. The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or hearing.

Formal Complaint Procedures

- A formal complaint should be filed in writing and contain the name and address of the person filing the complaint. The complaint should briefly describe the alleged violation. If an individual does not wish to file a written complaint, and the matter has not been adequately resolved, the building principal may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.
- A complaint should be filed as soon as possible after the conduct occurs but not later than 180 days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.
- If appropriate, an investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board shall appoint an investigating officer. In other instances, the investigation shall be conducted by the building principal, the compliance coordinator, or another individual appointed by the board. The investigation shall be informal but thorough. All interested persons, including the complainant and the person against whom the complaint is lodged, will be afforded an opportunity to submit written or oral evidence relevant to the complaint.
- A written determination of the complaint's validity and a description of the resolution shall be issued by the investigator, and a copy forwarded to the complainant and the accused no later than 30 days after the filing of the complaint.
 - If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.
 - If the investigation results in a recommendation that an employee be suspended without pay or terminated, procedures outlined in

board policy, the negotiated agreement (as applicable), and state law will be followed.

- Records relating to complaints filed and their resolution shall be forwarded to and maintained in a confidential manner by the district compliance coordinator.
- The complainant may appeal the determination of the complaint. Appeals shall be heard by the district compliance coordinator, a hearing officer appointed by the board, or by the board itself as determined by the board. The request to appeal the resolution shall be made within 20 days after the date of the written resolution of the complaint at the lower level. The appeal officer shall review the evidence gathered by the investigator and the investigator's report and shall afford the complainant and the person against whom the complaint is filed an opportunity to submit further evidence, orally or in writing, within 10 days after the appeal is filed. The appeal officer will issue a written determination of the complaint's validity and a description of its resolution within 30 days after the appeal is filed.
- If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence. The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or hearing.
- Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

Complaints About Discrimination on the Basis of Sex

Complaints regarding alleged discrimination on the basis of sex, as prohibited by Title IX of the Education Amendments of 1972 and other federal and state laws regulating such discrimination and discriminatory harassment, shall be handled in accordance with the procedures outlined in board policies GAAC and JGEC and shall be directed to the Title IX Coordinator at (position or name, address, email address, and phone number of Title IX Coordinator).

We will use the format You request unless We cannot practicably do so. You must make a request in writing to obtain access to Your PHI when You make the request as an exercise of Your HIPAA Privacy rights. Many records are available without making the request as an exercise of HIPAA Privacy rights. You may obtain a form to request access by using the contact information listed at the end of this notice. If You request copies, We will charge You a fee for the costs of copying, other supplies and postage if You want the copies mailed to You and staff time associated with Your request. For information maintained off-site in archival warehouses or that is not reasonably identifiable and accessible, We will charge the actual cost of the time and other resources required to make the information available. If You request an alternative format, We will charge a cost-based fee for providing Your PHI in that format. If You prefer, We will prepare a summary or an explanation of Your PHI for a fee. Contact Us using the information listed at the end of this notice for a full explanation of Our fee structure.
- **Disclosure Accounting:** You have the right to receive a list of instances in which We or Our business associates disclosed Your PHI for purposes other than for treatment, payment, health care operations, as authorized by You, and for certain other activities since April 14, 2004 or the date coverage became effective for You, whichever is later. You must make Your request in writing, and You must state that the information could endanger You if it is not communicated in confidence as You request. We must accommodate Your request if it is reasonable, specifies that alternative means or location and continues to permit Us to collect premiums and pay claims under Your health plan, including issuance of explanations of benefits to the subscriber of the health plan in which You participate. An explanation of benefits issued to the subscriber for health care that You received for which You did not request confidential communications or about the subscriber or others covered by the health plan in which You participate may contain sufficient information to reveal that You obtained health care, even though You requested that We communicate with You about that health care in confidence. If We deny Your request, We will provide You a written explanation. You may respond with a statement of disagreement to be appended to the information You wanted amended. If We accept Your request to amend the information, We will make reasonable efforts to inform others, including giving people Your name, of the amendment and to include the changes in any future disclosures of that information.

ECH PRINTING AND DUPLICATING SERVICES

Copyright Regulations and “fair use” rules for educators.

Suggested Handbook Language

In accordance with school board policy ECH, the following regulations will be observed to comply with the copyright laws of the United States.

Under the “fair use” doctrine, unauthorized reproduction of copyrighted materials is permissible for such purposes as criticism, comment, news reporting, teaching, scholarship or research. If duplicating or altering a product is to fall within the bounds of fair use, these four standards must be met for any of the purposes:

The Purpose and Character of the Use

The use must be for such purposes as teaching or scholarship and must be nonprofit. Fair use would probably allow teachers acting on their own to copy small portions of work for the classroom but would not allow a school system or an institution to do so.

The Nature of the Copyrighted Work

Copying portions of a news article may fall under fair use but not copying from a workbook designed for a course of study.

The Amount and Substantiality of the Portion Used

Copying the whole of a work cannot be considered fair use; copying a small portion may be. At the same time, however, extracting a short sequence from a 16mm film may be far different from a short excerpt from a textbook, because two or three minutes out of a 20-minute film might be the very essence of that production and thus outside fair use. Under normal circumstances, extracting small amounts out of an entire work would be fair use, but a quantitative test alone does not suffice.

The Effect of the Use Upon the Potential Market for or Value of the Copyrighted Work

If resulting economic loss to the copyright holder can be shown, even making a single copy of certain materials is an infringement, and making multiple copies can result in greater penalties.

Prohibited Practice

No one may make multiple copies of a work for classroom use if it has already been copied for another class in the same institution; make multiple copies of a short poem, article, story, or essay from the same author more than once in a class term or make multiple copies from the same collective work or periodical issue more than three times a term; make multiple copies of works more than nine times in the same class term; make a copy of works to take the place of an anthology; and may not make a copy of “consumable” materials, such as workbooks.

ECH PRINTING AND DUPLICATING SERVICES

Permitted Practice

A teacher may make--for use in scholarly research, in teaching or in preparation for teaching a class--a single copy of the following: a chapter from a book; an article from a periodical or newspaper; a short story, short essay or short poem (whether or not from a collected work); a chart, graph, diagram, drawing, cartoons or picture from a book, periodical or newspaper; may make (for classroom use only and not to exceed one per student in a class) multiple copies of the following: a complete poem (if it has fewer than 250 words and is printed on not more than two pages), an excerpt from a prose work (if the excerpt has fewer than 1,000 words or 10 percent of the work, whichever is less) and one chart, graph, diagram, cartoon or picture per book or periodical.

A library may, for interlibrary-loan purposes, make up to six copies a year of a periodical published within the last five years, make up to six copies a year of small excerpts from longer works, make copies of unpublished works for purposes of preservation and security and make copies of out-of-print works that cannot be obtained at a fair price.

Guidelines for Off-Air Recording of Broadcast Programming for Education Purposes

A broadcast program may be recorded off-air simultaneously with broadcast transmission (including simultaneous cable retransmission) and retained for a period not to exceed the first 45 consecutive calendar days after date of recording. Upon conclusion of such retention period, all off-air recordings must be erased or destroyed immediately.

Off-air recordings may be used once by individual teachers in the course of relevant teaching activities and repeated once, only when instructional reinforcement is necessary, in classrooms and similar places devoted to instruction within a single building, cluster or campus, as well as in the homes of students receiving formalized home instruction, during the first 10 consecutive school days in the 45 calendar day retention period. "School days" are school session days--not counting weekends, holidays, vacations, examination periods or other scheduled interruptions--within the 45 calendar day retention period.

Off-air recordings may be made only at the request of and used by individual teachers and may not be regularly recorded in anticipation of requests. No broadcast program may be recorded off-air more than once at the request of the same teacher, regardless of the number of times the program may be broadcast.

A limited number of copies may be reproduced from each off-air recording to meet the legitimate needs of teachers under these guidelines. Each such additional copy shall be subject to all provisions governing the original recordings.

After the first 10 consecutive school days, off-air recordings may be used up to the end of the 45 calendar day retention period only for evaluation purposes by the teacher, i.e., to determine whether or not

ECH PRINTING AND DUPLICATING SERVICES

to include the broad-cast program in the teaching curriculum. They may not be used for student exhibition or any other nonevaluation purpose without authorization.

Off-air recordings need not be used in their entirety, but the recorded programs may not be altered from their original content. Off-air recordings may not be physically or electronically combined or merged to constitute teaching anthologies or compilations.

All copies of off-air recordings must include the copyright notice on the broadcast programs as recorded.

Computer Software

District employees may make a back-up copy of computer programs as permitted by current Federal Law. Back-up copies may be used for archival purposes only and all archival copies shall be destroyed in the event that continued possession of the computer program should cease to be rightful.

When software is used on a disk-sharing system, efforts shall be made to secure this software from copying.

Illegal copies of copyrighted programs shall not be made or used on school equipment.

Allowability of Costs – Federal Programs

Expenditures of federal funds must be aligned with approved budgeted items. Any changes or variations from the state-approved budget and grant application need prior approval from the state.

Delegation of Responsibility

When determining how the school district will spend its grant funds, the { } *Superintendent* will review the proposed cost to determine whether it is an allowable use of federal grant funds *before* obligating and spending those funds on the proposed good or service.

Allowability Determinations

All costs supported by federal education funds must meet the standards outlined in EDGAR, 2 CFR Part 3474 and 2 CFR Part 200, Subpart E, which are listed below. The { } *Superintendent* must consider these factors when making an allowability determination. A section entitled, *Helpful Questions for Determining Whether Costs are Allowable*, is located at the end of this document.

Part 200 sets forth general cost guidelines that must be considered, as well as rules for specific types of items, both of which must be considered when determining whether a cost is an allowable expenditure of federal funds. The expenditure must also be allowable under the applicable program statute (e.g., Title I of the Elementary and Secondary Education Act (ESEA), or the Carl D. Perkins Career and Technical Education Act (Perkins)), along with accompanying program regulations, nonregulatory guidance, and grant award notifications.

Restrictions in state and local rules or policy also must be considered. For example, travel and other job-related expenses incurred by employees are not allowable unless they also are in compliance with board policy GAN, administrative regulations, and related procedures.

Whichever allowability requirements are stricter will govern whether a cost is allowable.

General allowability determination factors include the following:

1. **Be Necessary and Reasonable for the performance of the federal award.** A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision to incur the cost was made. For example, **reasonable** means that sound business practices were followed, and purchases were comparable to market prices.

When determining reasonableness of a cost, consideration must be given to:

- Whether the cost is a type generally recognized as ordinary and necessary for the operation of the district or the proper and efficient performance of the federal award.
- The restraints or requirements imposed by factors, such as: sound business practices; arm's-length bargaining; federal, state and other laws and regulations; and terms and conditions of the federal award.
- Market prices for comparable goods or services for the geographic area.

DFAC ALLOWABILITY OF COSTS – FEDERAL PROGRAMS

- Whether the individual incurring the cost acted with prudence in the circumstances considering responsibilities to the district, its employees, its students, the public at large, and the federal government.
- Whether the district significantly deviates from its established practices and policies regarding the incurrence of costs, which may unjustifiably increase the federal award's cost. (2 CFR Sec. 200.404)

Whether a cost is **necessary** will be determined based on the needs of the program. Specifically, the expenditure must be necessary to achieve an important program objective. A key aspect in determining whether a cost is necessary is whether the district can demonstrate that the cost addresses an existing need, and can prove it. For example, the school entity may deem a language skills software program necessary for a limited English proficiency program.

When determining whether a cost is necessary, consideration may be given to:

- Whether the cost is needed for the proper and efficient performance of the federal award program.
 - Whether the cost is identified in the approved budget or application.
 - Whether there is an educational benefit associated with the cost.
 - Whether the cost aligns with identified needs based on results and findings from a needs assessment.
 - Whether the cost addresses program goals and objectives and is based on program data.
2. **Allocable to the federal award.** A cost is allocable to the federal award if the goods or services involved are chargeable or assignable to the federal award in accordance with the relative benefit received. This means that the federal grant program derived a benefit in proportion to the funds charged to the program. (2 CFR Sec. 200.405)
- For example, if fifty percent (50%) of a teacher's salary is paid with grant funds, then that teacher must spend at least fifty percent (50%) of his/her time on the grant program.
3. **Consistent with policies and procedures that apply uniformly to both federally-financed and other activities of the school entity.**
4. **Conform to any limitations or exclusions set forth as cost principles in Part 200 or in the terms and conditions of the federal award.**
5. **Consistent treatment.** A cost cannot be assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been assigned as an indirect cost under another award.
6. **Adequately documented.** All expenditures must be properly documented.
7. **Be calculated in accordance with generally accepted accounting principles (GAAP), unless provided otherwise in Part 200.**

DFAC ALLOWABILITY OF COSTS – FEDERAL PROGRAMS

8. **Not included as a match or cost-share, unless the specific federal program authorizes federal costs to be treated as such.** Some federal program statutes require the nonfederal entity to contribute a certain amount of nonfederal resources to be eligible for the federal program.

9. **Be the net of all applicable credits.** The term “applicable credits” refers to those receipts or reduction of expenditures that operate to offset or reduce expense items allocable to the federal award. Typical examples of such transactions are: purchase discounts; rebates or allowances; recoveries or indemnities on losses; and adjustments of overpayments or erroneous charges. To the extent that such credits accruing to or received by the state relate to the federal award, they shall be credited to the federal award, either as a cost reduction or a cash refund, as appropriate. (2 CFR Sec. 200.406)

Selected Items of Cost

Subpart E of Part 200 sets forth principles to be applied in establishing the allowability of fifty-five (55) specific cost items (commonly referred to as Selected Items of Cost), at 2 CFR Sec. 200.420-200.475. These specific cost items are listed in the chart below along with the citation to the section of Subpart E addressing the allowability of that item. These principles are in addition to the other general allowability standards, and apply whether or not a particular item of cost is properly treated as direct cost or indirect (F&A) cost. Meeting the specific criteria for a listed item does not by itself mean the cost is allowable, as it may be unallowable under other standards or for other reasons, such as restrictions contained in the terms and conditions of a particular grant or restrictions established by the state or in Board policy. If an item is unallowable for any of these reasons, federal funds cannot be used to purchase it.

School district employees responsible for spending federal grant funds and for determining allowability must be familiar with and refer to the Part 200 selected items of cost section. These rules must be followed when charging these specific expenditures to a federal grant. When applicable, employees must check costs against the selected items of cost requirements to ensure the cost is allowable and also check state, district, and program-specific rules.

The selected item of cost addressed in Part 200 includes the following (in alphabetical order):

Helpful Questions for Determining Whether Costs are Allowable -

In addition to applying the cost principles and standards described above, district staff involved in expending federal funds should ask the following questions when assessing the allowability of a particular cost:

DFAC ALLOWABILITY OF COSTS – FEDERAL PROGRAMS

1. Is the proposed cost allowable under the relevant program?
2. Is the proposed cost consistent with an approved program plan and budget?
3. Is the proposed cost consistent with program specific fiscal rules? For example, the school entity may be required to use federal funds only to supplement the amount of funds available from nonfederal (and possibly other federal) sources, or only as a match for funds from nonfederal sources.
4. Is the proposed cost consistent with EDGAR?
5. Is the proposed cost consistent with specific conditions imposed on the grant (if applicable)?
6. Is the proposed cost consistent with the underlying needs of the program? For example, program funds must benefit the appropriate population of students for which they are allocated. This means that, for instance, funds allocated under Title III of the Elementary and Secondary Education Act (ESEA) governing language instruction programs for Limited English Proficient (LEP) students must only be spent on LEP students and cannot be used to benefit non-LEP students.
7. Will the cost be targeted at addressing specific areas of weakness that are the focus of the program, as indicated by available data?

Any questions related to specific costs should be forwarded to the { } *Superintendent* who shall consult with the board's legal counsel for clarification as appropriate.

DFAC CASH MANAGEMENT – FEDERAL PROGRAMS

(Sample Procedure)

Cash Management – Federal Programs

Generally, the school district receives payment of federal funds from the Kansas State Department of Education (KSDE) on a reimbursement basis. In some circumstances, the district may receive an advance of federal grant funds. This procedure addresses responsibilities of the district and district staff under those alternative payment methods. In either case, the district shall maintain accounting methods and internal controls and procedures that assure those responsibilities are met when dealing with federal funding.

Payment Methods

Reimbursements -

The school district will initially charge federal grant expenditures to nonfederal funds.

The { } *Superintendent* will request reimbursement for actual expenditures incurred under the federal grants { } *quarterly*. Such requests shall be submitted with appropriate documentation and signed by the requestor.

Requests for reimbursements will be approved by the { } *Superintendent*.

Reimbursement will be submitted on the appropriate form to the KSDE portal. All reimbursements are based on actual disbursements, not on obligations. KSDE will process reimbursement requests within the timeframes required for disbursement.

Consistent with state and federal requirements, the school district will maintain source documentation supporting the federal expenditures (invoices, time sheets, payroll stubs, etc.) and will make such documentation available for KSDE to review upon request.

Reimbursements of actual expenditures do not involve interest calculations.

Advances -

When the district receives advance payments of federal grant funds, it must minimize the time elapsing between the transfer of funds to the district and the expenditure of those funds on allowable costs of the applicable federal program. (2 CFR Sec. 200.305(b)) The district shall attempt to expend all advances of federal funds within seventy-two (72) hours of receipt.

When applicable, the district shall use existing resources available within a program before requesting additional advances. Such resources include program income (including repayments to a revolving fund), rebates, refunds, contract settlements, audit recoveries, and interest earned on such funds. (2 CFR Sec. 305(b)(5))

The district shall hold federal advance payments in insured, interest-bearing accounts.

The school district is permitted to retain for administrative expense up to \$500 per year of interest earned on federal grant cash balances. Regardless of the federal awarding agency, interest earnings exceeding \$500 per year shall be remitted annually to the Department of Health and Human Services Payment Management System (PMS) through an electronic medium using either Automated Clearing House (ACH) network or a Fedwire Funds Service payment. (2 CFR Sec. 200.305(b)(9))

Pursuant to federal guidelines, interest earnings shall be calculated from the date that the federal funds are drawn down from the G5 system until the date on which those funds are disbursed by the district.

Consistent with state guidelines, interest accruing on total federal grant cash balances shall be calculated on cash balances per grant and applying the actual or average interest rate earned.

Remittance of interest shall be responsibility of the { } *Superintendent* .

DFAC GRANT SUBRECIPIENT MONITORING PROCEDURES – FEDERAL PROGRAMS

(Sample Procedure)

Grant Subrecipient Monitoring Procedures – Federal Programs

In the event the district disperses federal funds received through a federal award to other entities and assigns responsibilities to the outside entity to conduct a portion of the work, the district shall be responsible for determining, on a case-by-case basis, whether the agreement with such entity places the outside entity in the role of a subrecipient receiving a subaward of federal funding, or the role of a contractor.

If the district grants subawards of federal funding to other entities as subrecipients, the district shall be responsible for:

1. Evaluating the entity for risk of noncompliance to determine appropriate monitoring practices.
2. Monitoring the subrecipient entity's implementation to ensure compliance with federal, state, and local laws, conditions of the federal funding award, and board policy and procedures.
3. Notifying the subrecipient entity of identified deficiencies found during the monitoring process and ensuring that identified deficiencies are corrected.
4. Documenting and retaining records on subrecipient identification, notification, evaluation, monitoring, and corrective actions taken.

Definitions

For purposes of policies and procedures related to federal programs, the following definitions shall apply:
Contract – a legal instrument by which a non-federal entity purchases property or services needed to carry out the project or program under a federal award. The term as used here does not include a legal instrument, even if the entity considers it a contract, when the substance of the transaction meets the definition of a federal program award or subaward. (2 CFR 200.22)

Contractor – an entity that receives a contract, as defined in law and regulations, by which a non-federal entity purchases property or services needed to carry out the project or program under a federal award. (2 CFR 200.23)

Pass-through entity – a non-federal entity that provides a subaward to a subrecipient to carry out part of a federal program. The district serves as the pass-through entity in cases where it awards federal funding to a subrecipient as defined in this procedure. (2 CFR 200.74)

Subaward – an award provided by a pass-through entity to a subrecipient in order to carry out part of a federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract. (2 CFR 200.92)

Subrecipient – a non-federal entity that receives a subaward to carry out part of a federal program; but does not include an individual that is a beneficiary of such program. (A subrecipient may also be a recipient of other federal awards directly from a federal awarding agency.) (2 CFR 200.93)

Subrecipient Versus Contractor

The district must determine, on a case-by-case basis, whether an entity receiving funds from the district as part of a federal funding program serves in a role of subrecipient or contractor. (2 CFR 200.330)

The { } *Superintendent* shall be responsible for analyzing the criteria listed in the chart below and evaluating the relationship with the entity based on the substance of the legal agreement, rather than the form of the agreement. The _____ may consult with the board's legal counsel or other qualified counsel in making such determination.

 6. Appropriate terms and conditions concerning closeout of the subaward.

Evaluation of Risk

The district shall evaluate each subrecipient's risk of noncompliance with law, regulations and the terms and conditions of the subaward to determine appropriate monitoring practices. (2 CFR 200.331)

The { } *Superintendent* or designee shall be responsible for evaluating risk based on the following factors:

1. The subrecipient's prior experience with the same or similar subawards;
2. The results of previous audits, including whether the subrecipient receives a single audit and the extent to which the same or similar subaward has been audited;
3. Whether the subrecipient has new personnel, or new or substantially changed systems and processes;
4. The extent and results of any federal award agency's monitoring of the subrecipient.

The _____ or designee shall request adequate documentation from the subrecipient to conduct the evaluation of risk; such documentation may include, but may not be limited to { } *audit*

reports { } financial reports { } policies and procedures { } detailed descriptions or users' guides of current systems and processes.

The district shall evaluate subrecipients for risk of noncompliance { } *annually or { } as specified in the legal agreement or contract.*

Based on the results of the risk evaluation, the district may consider imposing specific conditions on implementation of the subaward, in accordance with applicable law and regulations. (2 CFR 200.207, 200.331)

Monitoring

The district shall monitor the implementation and activities of each subrecipient as necessary to ensure that the subaward is used for authorized purposes, in accordance with law, regulations and the terms and conditions of the subaward. The district shall notify subrecipients of monitoring requirements, and may provide technical assistance to subrecipients in complying with monitoring requirements.

As part of the monitoring process, the district shall complete the following steps: (2 CFR 200.331)

1. Review financial and performance reports required by the district.
2. Follow-up and ensure that the subrecipient takes timely and appropriate action on all deficiencies pertaining to the subaward detected during monitoring through audits, on-site reviews and other means.
3. Issue a management decision for audit findings pertaining to the subaward provided to the subrecipient, in accordance with applicable law and regulations. (2 CFR 200.521)

Monitoring –

The { } *Superintendent* or designee shall be responsible for monitoring of subrecipients. Monitoring activities may include, but shall not be limited to:

1. Review of progress reports, financial reports and data quality.
2. On-site visits.
3. Review of federal or state debarment lists.
4. Review of other agreed-upon procedures specified in the legal agreement or contract. (2 CFR 200.425)

The district shall verify that subrecipients are audited as required by applicable law and regulations. (2 CFR 200.331, 2 CFR 200.500-200.521)

Follow-Up Actions –

The _____ or designee shall provide subrecipients with written documentation detailing their monitoring results and listing any identified deficiencies. The district shall consider whether the results of monitoring indicate the need to revise existing district policy and procedures. (2 CFR 200.331)

The district shall require subrecipients to take immediate action on issues involving ineligible or illegal use of federal funding, and notify the district of corrective action taken.

The district shall require subrecipients to develop a corrective action plan to address other identified deficiencies or noncompliance issues; such plan shall be submitted to the district { } *as soon as possible or { } as specified in the agreed-upon procedures*, and the district shall evaluate and monitor the activities taken by the subrecipient under the corrective action plan. The district may provide technical assistance and/or training to subrecipients in complying with corrective action requirements.

(Sample Procedure)

The _____ or designee shall maintain all documentation on monitoring of subrecipients and corrective action taken during the monitoring process.

The district shall report issues of noncompliance to the appropriate federal agency where required by law, regulations, or requirements of the federal funding program.

Remedies for Noncompliance –

When monitoring activities identify issues of noncompliance that are not addressed through corrective action, the district may take the following actions: (2 CFR 200.331, 200.338)

1. Impose specific conditions on the subrecipient, in accordance with applicable law and regulations. (2 CFR 200.207)
2. Temporarily withhold cash payments, in accordance with applicable law and regulations.
3. Disallow or deny use of funds for all or part of the cost of the activity or action not in compliance.
4. Wholly or partially suspend or terminate the agreement for the federal award.

DFAC PROCUREMENT – FEDERAL PROGRAM

Procurement – Federal Programs

This document is intended to integrate standard district purchasing procedures with additional requirements applicable to procurements that are subject to the federal Uniform Grant Guidance regulations concerning the use of federal funds and/or U.S. Department of Agriculture (USDA) regulations governing school food service programs. The district maintains the following purchasing procedures, in accordance with federal and state laws, regulations, and board policy to aid in making purchases with federal funds. (2 CFR 200.318-200.325; 7 CFR 210.16, 210.19, 210.21, 215.14a, 220.16; K.S.A. 72-6760; board policies DFAB, DFAC, DJE, DJEB, DJED, DJEE, DJEF, DJEG, DJEJ, DJFA, and DJFAB)

Responsibility for Purchasing

The board has outlined standard district purchasing responsibility, methods of purchasing, price quotations and bid, requirements in the following board policies and their accompanying administrative regulations and/or procedures:

- DFAB: Standard of Conduct for Federally Funded Contracts
- DFAC: Federal Fiscal Compliance
- DJE: Purchasing
- DJEB: Quality Control
- DJED: Bids and Quotations Requirements
- DJEE: Local Purchasing
- DJEF: Requisitions
- DJEG: Purchase Orders and Contracts
- DJEJ: Payment Procedures
- DJFA: Purchasing Authority
- DJFAB: Administrative Leeway

Purchase Methods

When a request for expenses for construction, reconstruction, or remodeling or for the purchase of materials, goods, or wares has been submitted and approved as outlined below, the procurement method to be used will be determined based on the type of purchase and the total cost of the purchase as further outlined below. This procedure outlines how the cost thresholds for determining when the quote or formal bidding procedures that are required by state law as reflected in Policy DJED must be modified when making purchases for federally funded purposes to which the Uniform Grant Guidance or USDA regulations apply to comply with both state and federal requirements. At each point where requirements for food service-related procurement under USDA regulations differ, a note will refer to the Food Service Program Notes at the end of this procedure. Final determination of which purchasing procedures are to be applied is delegated to the { } *Superintendent* under the authority of the Board.

DFAC PROCUREMENT – FEDERAL PROGRAM

Standard Procurement Documents and Purchase Request Process

The district shall use { } *purchase orders* and { } *requisitions* for purchase requests in accordance with the applicable purchase method.

The district shall use { } *paper* and { } *electronic* purchasing records, which are pre-numbered and are accessible to designated purchasing staff in { } *the district office*

Purchase requests by an employee must be submitted to the building administrator or immediate supervisor. Purchase of all budgeted items or items approved by an administrator or supervisor must be initiated by use of a purchase order or requisition submitted to the purchasing agent.

Purchase orders and requisitions shall contain information including, but not necessarily limited to:

1. Description of the services to be performed or goods to be purchased;
2. Location of where services will be performed or goods will be delivered;
3. Appropriate dates of service or delivery;
4. { } Other (describe) _____.

Documentation on purchase orders and requisitions shall be maintained in accordance with the district's Public Records policy (CN) and Federal Fiscal Compliance policy (DFAC).

Contracts shall be reviewed by the { } *Superintendent* prior to submission to the board for approval.

Contracts to which the Uniform Grant Guidance apply shall contain the clauses specified in Appendix II to 2 CFR Part 200 (Contract Provisions for Non-Federal Entity Contracts Under Federal Awards), when applicable.

[See Food Service Program Notes below for specific clauses required by USDA regulations to be included in cost reimbursable procurement contracts.]

Micro-Purchases Not Requiring Quotes or Bidding

For purposes of this procedure, **micro-purchase** means a purchase of supplies or services for use in federally funded programs using simplified acquisition procedures, the aggregate amount of which does not exceed a base amount of \$3,500. The micro-purchase dollar threshold is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register shall apply if other than \$3,500.(48 CFR Subpart 2.1)

Note: The micro-purchase maximum for federal purposes is lower than the amount below which the Policy DJED allows purchase for nonfederal purposes to be made without using formal competitive bidding.

The micro-purchase method is used to expedite the completion of its lowest dollar small purchase transactions and minimize the associated administrative burden and cost. Procurement by micro-purchase is the acquisition of supplies or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold.

DFAC PROCUREMENT – FEDERAL PROGRAM

To the extent practicable, the district distributes micro-purchases equitably among qualified suppliers when the same or materially interchangeable products are identified and such suppliers offer effectively equivalent rates, prices, and other terms. The { } *Superintendent* will be responsible to determine the equitable distribution of micro-purchases.

Micro-purchases may be awarded without soliciting competitive quotations if the district considers the price to be reasonable. The district will maintain evidence of this reasonableness in the records of all micro-purchases. **Reasonable** means that sound business practices were followed, and the purchase is comparable to market prices for the geographic area. Such determinations of reasonableness may include comparison of the price to previous purchases of the same item or comparison of the price of items similar to the item being purchased.

Even if the cost of a purchase qualifies it as a micro-purchase, bidding or small purchase procedures may be used optionally when those procedures may result in cost savings.

Small Purchase Procedures

For purposes of this procedure, **small purchase procedures** are those relatively simple and informal procurement methods for securing materials, goods, or wares or for completing construction, reconstruction, or remodeling that cost more than the amount qualifying as a micro-purchase and do not cost \$20,000 or more, or in the case of services other than construction, reconstruction or remodeling, where the total cost does not exceed the \$150,000 federal Simplified Acquisition Threshold at which formal competitive bidding or competitive proposals are required. Small purchase procedures cannot be used for construction, reconstruction or remodeling costing \$20,000 or more or for the purchase of materials, goods or wares costing \$20,000 or more because the board policy and Kansas law requires formal competitive bidding at that level of cost.

The base amount at which bidding is required under state law for construction, reconstruction or remodeling or for the purchase of materials, goods or wares is \$20,000. (K.S.A. 72-6760)

The federal Simplified Acquisition Threshold at which competitive bidding or competitive proposals are required is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register shall apply if other than \$150,000. (48 CFR Subpart 2.1)

Because state law does not require **competitive** bidding for the purchase of services other than for construction, reconstruction or remodeling with a cost in excess of \$20,000, small purchase procedures, including a request for proposal (RFP) procedure, may be used for procurement of such other services except when the estimated total cost will be at or over the federal threshold at which formal competitive bidding or competitive proposals are required (\$150,000).

[See Food Service Program Notes below for exemption from bidding for purchases of perishable food items costing less than \$150,000.]

Formal Competitive Bidding

Publicly Solicited Sealed Competitive Bids:

For construction, reconstruction, or remodeling or for the purchase of materials, goods or wares, sealed competitive bids are publicly solicited and awarded to the lowest responsible bidder as provided in Policy DJED when the total cost is estimated to be \$20,000 or more.

DFAC PROCUREMENT – FEDERAL PROGRAM

Note: The amount at which formal competitive bidding or competitive proposals are required by federal regulations is much higher than the base amount at which the policy and state law requires competitive bidding. Therefore, the lower base amount specified by Policy DJED will be used for purchases of equipment or supplies, or for obtaining services for construction, reconstruction or remodeling costing \$20,000 or more.

State law does not require bidding for the purchase of services other than for construction, reconstruction or remodeling regardless of total cost. For procurement of such other services for federally funded purposes to which the Uniform Grant Guidance applies, formal competitive bidding or competitive proposals will be used when the estimated total cost will be at or over the federal threshold of \$150,000.

The federal Simplified Acquisition Threshold at which competitive bidding or competitive proposals are required is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register shall apply if other than \$150,000. (48 CFR Subpart 2.1)

For procurement of services costing at or over the \$150,000 federal threshold other than for construction, reconstruction or remodeling, the use of competitive sealed bidding is considered feasible and appropriate when:

1. A complete, adequate, and realistic specification or purchase description is available;
2. Two (2) or more responsible bidders are willing and able to compete effectively for the business; and
3. The procurement lends itself to a firm fixed-price contract, and the selection of the successful bidder can be made principally on the basis of price.

Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs must be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of. Any or all bids may be rejected if there is a sound documented reason.

[See Food Service Program Notes below for reference to state requirements regarding contracts with food service management companies and contractors of pre-plated meals.]

Competitive Proposals

State law does not require public school entities to solicit competitive bids for services other than for construction, reconstruction or remodeling, for which competitive bidding is required if the cost will be a base amount of \$20,000 or more.

Federal regulations allow the use of competitive proposals as an alternative to formal competitive bidding when conditions are not appropriate for the use of sealed bids.

In the case of services other than for construction, reconstruction or remodeling costing less than that threshold, the district may use small purchase procedures or micro-purchase procedures as applicable based on total cost. A request for proposal (RFP) process can also meet or exceed the small purchase competition requirements under state law and Policy DJED for the acquisition of services other than for construction, reconstruction or remodeling, and can be used if the total cost will be less than \$150,000.

DFAC PROCUREMENT – FEDERAL PROGRAM

When permitted, the technique of competitive proposals is normally conducted with more than one (1) source submitting an offer, and either a fixed price or cost-reimbursement type contract is awarded. Competitors' qualifications are evaluated, and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The district shall comply with other applicable state and federal law and regulations, board policy and administrative regulations or procedures regarding purchasing; the district may consult with the school solicitor or other qualified counsel in determining the required process for purchasing through competitive proposals when necessary.

If this method is used, the following requirements apply:

1. Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals must be considered to the maximum extent practical.
2. Proposals must be solicited from an adequate number of qualified sources.
3. There must be a written method for conducting technical evaluations of the proposals received and for selecting recipients.
4. Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered.
5. Competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified is selected, subject to negotiation of fair and reasonable compensation, are allowed. The method where price is not used as a selection factor can only be used in procurement of A/E professional services and cannot be used to purchase other services through A/E firms.

Competitive proposals shall be evaluated by the { } *Superintendent* based on factors including but not limited to:

1. Cost.

{ } *Experience of contractor.*

{ } *Availability.*

{ } *Personnel qualifications.*

{ } *Financial stability.*

{ } *Minority business, women's business enterprise, or labor surplus area firm status.*

{ } *Project management expertise.*

{ } *Understanding of district needs.*

{ } *Other _____.*

Evaluations shall be completed in a timely manner, documented and shall be reviewed by the { } *Superintendent*

DFAC PROCUREMENT – FEDERAL PROGRAM

Contract/Price Analysis

The district performs a cost or price analysis in connection with every procurement action in excess of \$150,000, including contract modifications. (2 CFR Sec. 200.323(a)).

A **cost analysis** generally means evaluating the separate cost elements that make up the total price, while a **price analysis** means evaluating the total price, without looking at the individual cost elements.

The method and degree of analysis is dependent on the facts surrounding the particular procurement situation; however, the { } *Superintendent* must come to an independent estimate prior to receiving bids or proposals. (2 CFR Sec. 200.323(a)). As part of the analysis, the _____ will enact established business practices which may include evaluation of similar prior procurements and a review process.

Negotiated Profit

In any procurement in which there has been no price competition, or in which a cost-analysis is performed, profit must be negotiated separately as an element of price. Accordingly, solicitations of bids, proposals or quotes shall require that bids, proposals or quotes be limited to costs other than profit, and exclude profit.

To establish a fair and reasonable profit, consideration is given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work. (2 CFR Sec. 200.323(b)).

When profit must be negotiated as a separate element of the total price, it shall be negotiated by the { } *Superintendent*.

Noncompetitive Proposals (Sole Sourcing)

Procurement by noncompetitive proposals means procurement through solicitation of a proposal from only one (1) source and may be used only when one or more of the following circumstances apply:

1. The item is available only from a single source.
2. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation. An **emergency** exists whenever the time required for the board to act in accordance with regular procedures would endanger life or property or threaten continuance of existing school classes.
3. The federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the district.
4. After solicitation of a number of sources, the district determines the competition is inadequate.

In addition to standard procurement policy and procedures, the district will document the grounds for using the noncompetitive method in lieu of an otherwise required competitive method of procurement, which may include written confirmation from the contractor as the sole source of the item.

Documentation must be submitted to and maintained by the district office.

DFAC PROCUREMENT – FEDERAL PROGRAM

All noncompetitive proposals will ultimately be approved by the board. The district may utilize legal advice regarding noncompetitive proposals.

Profit must be negotiated separately for noncompetitive proposals, and a cost or price analysis will also be performed for noncompetitive proposals when the price exceeds \$150,000.

Purchase Cards

The district approves the use of procurement cards for permissible purchases by designated employees to improve the efficiency of purchasing activities, reduce processing expenses, improve controls for small-dollar purchases, and streamline contractor payment.

Procurement cards may be used for purchases under federal programs.

Full and Open Competition

All procurement transactions must be conducted in a manner providing full and open competition consistent with 2 CFR Sec. 200.319. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals must be excluded from competing for such procurements. Some of the situations considered to be restrictive of competition include but are not limited to:

1. Placing unreasonable requirements on firms in order for them to qualify to do business.
2. Requiring unnecessary experience and excessive bonding.
3. Noncompetitive pricing practices between firms or between affiliated companies.
4. Noncompetitive contracts to consultants that are on retainer contracts.
5. Organizational conflicts of interest.
6. Specifying only a “brand name” product instead of allowing “an equal” product to be offered and describing the performance or other relevant requirements of the procurement.
7. Any arbitrary action in the procurement process.

Minority Businesses, Women’s Business Enterprises, Labor Surplus Area Firms

The district must take necessary affirmative steps to assure that minority businesses, women’s business enterprises, and labor surplus area firms are used when possible. Affirmative steps must include: (2 CFR Sec. 200.321)

1. Placing qualified small and minority business and women’s business enterprises on solicitation lists.
2. Assuring that small and minority businesses, and women’s business enterprises are solicited whenever they are potential sources.

DFAC PROCUREMENT – FEDERAL PROGRAM

3. Dividing total purchasing requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority business and women's business enterprises.
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses and women's business enterprises.
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.
6. Requiring the prime contractor, if subcontracts are let, to take the affirmative steps listed above.

Geographical Preferences Prohibited

The district must conduct procurements in a manner that prohibits the use of statutorily or administratively imposed state, local, or tribal geographical preferences in the evaluation of bids or proposals for purchases made with federal funds, except in those cases where applicable federal statutes expressly mandate or encourage geographic preference. When contracting for architectural and engineering (A/E) services, geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

[See Food Service Program Notes below for permissibility of geographic preferences and “Buy American” practices in purchasing certain food products]

Prequalified Lists

The district must ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Also, the district must not preclude potential bidders from qualifying during the solicitation period.

[See Food Service Program Notes below for reference to state requirements regarding contracts with food service management companies and contractors of pre-plated meals.]

Solicitation Language

The district must ensure that all solicitations incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description must not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured and, when necessary, must set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if possible.

When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a “brand name or equivalent” description may be used to define the performance or other salient requirements of procurement. The specific features of the named brand which must be met by

DFAC PROCUREMENT – FEDERAL PROGRAM

offers must be clearly stated; and identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals.

Avoiding Acquisition of Unnecessary or Duplicative Items

The district must avoid the acquisition of unnecessary or duplicative items. Additionally, consideration must be given to consolidating or breaking out procurements to obtain a more economical purchase; and, where appropriate, an analysis must be made of leases versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.

These considerations are given as part of the process to determine the allowability of each purchase made with federal funds. Such considerations are accessible in the procedure to Policy DFAC: Allowability of Costs – Federal Programs.

Use of Intergovernmental Agreements and Cooperative Purchasing

To foster greater economy and efficiency, the district enters into state and local intergovernmental agreements where appropriate for cooperative purchasing or use of common or shared goods and services, as permitted by the Intergovernmental Cooperation Act.

When procuring supplies or services for federally funded purposes to which the Uniform Grant Guidance applies, the district shall verify that the organization conducting the procurement pursuant to such agreements complies with the applicable procurement methods, requirements, and standards of the Uniform Grant Guidance as outlined in this procedure.

Use of Federal Excess and Surplus Property

The district considers the use of federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs.

Debarment and Suspension

The district awards contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

[See Food Service Program Notes below for reference to state requirements regarding contracts with food service management companies and contractors of pre-plated meals.]

The district may not subcontract with or award subgrants to any person or company who is debarred or suspended. For all contracts over \$25,000 the district verifies that the contractor with whom the district intends to do business is not excluded or disqualified. (2 CFR Part 200, Appendix II, and 2 CFR Sec. 180.220 and 180.300).

All successful contractors must provide written certification that they have not been suspended or debarred from federal projects. The { } *Federal Programs Coordinator* will be responsible for verification. Such verification may include accessing the online federal System for Award Management (SAM) to determine whether any relevant party is subject to any suspension or debarment restrictions.

DFAC PROCUREMENT – FEDERAL PROGRAM

Maintenance of Procurement Records

The district must maintain records sufficient to detail the history of all procurements. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, the basis for the contract price (including a cost or price analysis), and verification that the contractor is not suspended or debarred.

Maintenance of records of procurement will be governed by board Policies CN and DFAC.

Time and Materials Contracts

The district may use a time and materials type contract only: (1) after a determination that no other contract is suitable; and (2) if the contract includes a ceiling price that the contractor exceeds at its own risk. **Time and materials type contract** means a contract whose cost to the district is the sum of: the actual costs of materials, and direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

Since this formula generates an open-ended contract price, a time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, each contract must set a ceiling price that the contractor exceeds at its own risk. Further, the district must assert a high degree of oversight to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

Settlements of Issues Arising Out of Procurements

The district alone is responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the district of any contractual responsibilities under its contracts. Violations of law will be referred to the local, state, or federal authority having proper jurisdiction.

Protest Procedures to Resolve Dispute

The district maintains protest procedures to handle and resolve disputes relating to procurements and, in all instances, discloses information regarding the protest to the awarding agency. Protest procedures will be acted on in accordance with current state law and regulations, board policy and administrative regulations and procedures, and the advice of the board's legal counsel.

Food Service Program Notes:

Exemption from Bidding for Perishable Food Items -

Kansas law exempts purchases of food and foodstuffs necessary for the implementation or operation of any child nutrition program from bidding requirements. Bidding for such items is required only if the cost would be at or over the federal threshold at which formal competitive bidding is required (\$150,000). Small purchase procedures may be used for purchases below \$150,000, or micro-purchase procedures for purchases below \$3,500. Use of bidding should be considered as an option if it is feasible and likely to result in cost savings.

Geographic Preferences -

DFAC PROCUREMENT – FEDERAL PROGRAM

The district is permitted to apply a geographic preference when procuring unprocessed, locally grown or locally raised agricultural products. When a geographic preference is applied, the district has discretion to determine the local area to which the geographic preference option will be applied.

Unprocessed locally grown or locally raised agricultural products means only those agricultural products that retain their inherent character. The effects of the following food handling and preservation techniques shall not be considered as changing an agricultural product into a product of a different kind or character: cooling; refrigerating; freezing; size adjustment made by peeling, slicing, dicing, cutting, chopping, shucking, and grinding; forming ground products into patties without any additives or fillers; drying/dehydration; washing; packaging (such as placing eggs in cartons), vacuum packing and bagging (such as placing vegetables in bags or combining two (2) or more types of vegetables or fruits in a single package); the addition of ascorbic acid or other preservatives to prevent oxidation of produce; butchering livestock and poultry; cleaning fish; and the pasteurization of milk. (7 CFR Sec. 210.21, 215.14a, 220.16)

Buy American -

The district shall purchase, to the maximum extent practicable, domestic commodities or products for food service purposes. The term **domestic commodity or product** means: (7 CFR Sec. 210.21, 220.16)

1. An agricultural commodity that is produced in the United States; and
2. A food product that is processed in the United States substantially using agricultural commodities that are produced in the United States.

Mandatory Contract Clauses -

The following provisions shall be included in all cost reimbursable contracts for food services purchases, including contracts with cost reimbursable provisions, and in solicitation documents prepared to obtain offers for such contracts: (7 CFR Sec. 210.21, 215.14a, 220.16)

1. Allowable costs will be paid from the nonprofit school food service account to the contractor net of all discounts, rebates and other applicable credits accruing to or received by the contractor or any assignee under the contract, to the extent those credits are allocable to the allowable portion of the costs billed to the school food authority;
2. (a) The contractor must separately identify for each cost submitted for payment to the school food authority the amount of that cost that is allowable (can be paid from the nonprofit school food service account) and the amount that is unallowable (cannot be paid from the nonprofit school food service account); or

(b) The contractor must exclude all unallowable costs from its billing documents and certify that only allowable costs are submitted for payment and records have been established that maintain the visibility of unallowable costs, including directly associated costs in a manner suitable for contract cost determination and verification;
3. The contractor's determination of its allowable costs must be made in compliance with the applicable departmental and program regulations and Office of Management and Budget cost circulars;

DFAC PROCUREMENT – FEDERAL PROGRAM

4. The contractor must identify the amount of each discount, rebate and other applicable credit on bills and invoices presented to the school food authority for payment and individually identify the amount as a discount, rebate, or in the case of other applicable credits, the nature of the credit. If approved by the state agency, the school food authority may permit the contractor to report this information on a less frequent basis than monthly, but no less frequently than annually;
5. The contractor must identify the method by which it will report discounts, rebates and other applicable credits allocable to the contract that are not reported prior to conclusion of the contract; and
6. The contractor must maintain documentation of costs and discounts, rebates and other applicable credits, and must furnish such documentation upon request to the school food authority, the state agency, or the department.

Contracts with Food Service Management Companies -

Procedures for selecting and contracting with a food service management company (FSMC) shall comply with guidance provided by the Kansas State Department of Education, Division of Child Nutrition and Wellness, including standard forms, procedures and timelines for solicitation, selection and approval of proposals and contracts. (7 CFR Sec. 210.16, 210.19, 210.21, 215.14a, 220.16)

Pre-Plated Meals -

Procedures for selecting and contracting with contractors of pre-plated meals shall comply with guidance provided by the Kansas State Department of Education, Division of Child Nutrition and Wellness, including standard forms, procedures and timelines for solicitation, selection and approval of proposals and contracts. (7 CFR Sec. 210.16, 210.19, 210.21, 220.16)

Type of Costs, Obligations and Property Management – Federal Programs

The district establishes and maintains board policies, administrative regulations, and administrative procedures on administration of federal funds in federal programs as required by the Uniform Grant Guidance and other federal, state, and local laws, regulations, and requirements. The district’s fiscal management system includes internal controls and grant management standards in the following areas when federal funds are involved.

Direct and Indirect Costs

Direct costs – costs that can be identified specifically with a particular final cost objective, such as a federal award, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy.

Indirect costs – costs incurred for a common or joint purpose benefiting more than one (1) cost objective, and not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved.

Costs incurred for the same purpose in like circumstances must be treated consistently as either direct or indirect costs. (2 CFR Sec. 200.405, 200.413)

Identification with the federal award rather than the nature of the goods and services involved is the determining factor in distinguishing direct from indirect costs.

Direct and indirect costs shall be determined in accordance with law, regulations, the terms and conditions of the federal award, and the district’s negotiated indirect cost rate.

The district shall develop an indirect cost rate proposal and cost allocation plan in accordance with law, regulations, and the terms and conditions of the federal award.

Timely Obligation of Funds

Obligations – orders placed for property and services, contracts, and subawards made and similar transactions during a given period that require payment by the district during the same or a future period.

The following table illustrates when funds must be obligated under federal regulations:

Obligation is for:	Obligation is made:
Acquisition of property	On the date on which the district makes a binding written commitment to acquire the property
Personal services by a district employee	When the services are performed
Personal services by a contractor who is not a district employee	On the date on which the district makes a binding written commitment to obtain the services
Public utility services	When the district receives the services
Travel	When the travel occurs
Rental of property	When the district uses the property

A pre-agreement cost that was properly approved by the Secretary under the cost principles in 2 CFR Part 200, Subpart E - Cost Principles	On the first day of the project period
---	--

34 CFR §75.707; 34 CFR §76.707

All obligations must occur between the beginning and ending dates of the federal award project, which is known as the period of performance. The period of performance is dictated by law and regulations and will be indicated in the federal award. Specific requirements for carryover funds may be specified in the federal award and must be adhered to by the district. (2 CFR Sec. 200.77, 200.309)

The district will handle obligations and carry over of state-administered and direct grants in accordance with state and federal law and regulations and the terms and conditions of the federal award. Carryover will be calculated and documented by the { } *Superintendent*.

The district may exercise an extension of the period of performance under a direct grant in accordance with law, regulations, and the terms and conditions of the federal award when written notice is provided to the federal awarding agency at least ten (10) calendar days prior to the end of the period of performance. (2 CFR Sec. 200.308(d)(2))

The { } *Superintendent* will decide when an extension of the period of performance is necessary and will recommend that the board approve this process.

The { } *Superintendent* will develop the required written notice, including the reasons for the extension and revised period of performance; the notice will be issued no later than ten (10) calendar days prior to the end of the currently documented period of performance in the federal award.

The district must seek approval from the federal awarding agency for an extension of the period of performance when the extension is not contrary to federal law or regulations, and the following conditions apply:

1. The terms and conditions of the federal award prohibit the extension;
2. The extension requires additional federal funds; or
3. The extension involves any change in the approved objectives or scope of the project. (2 CFR Sec. §200.308)

The { } *Superintendent* will determine when an extension must be requested for approval by the federal awarding agency, draft the written request and notify the { } *Board* of the requested extension.

Management of Property Acquired With Federal Funds

Contract and Purchasing Administration -

The district maintains internal controls, administrative regulations, and procedures to ensure that contractors deliver goods and services in accordance with the terms, conditions, and specifications of the designated contract, purchase order, or requisition.

Property Classifications -

Property shall be classified as **real or personal property** as defined and specified in accordance with law and regulations.

Inventory Control/Management -

All personal property, other than intangible property, which is purchased with federal funds, regardless of cost, will be inventoried as a safeguard.

Inventory will be received by the department or program requesting the item; designated staff will inspect the property, compare it to the applicable purchase order or requisition, and ensure it is appropriately logged and tagged in the district's property management system.

Items acquired will be physically labeled by source of funding and acquisition date.

Inventory records of equipment and computing devices must be current and available for review and audit, and include the following information:

1. Description of the item, including any manufacturer's model number.
2. Manufacturer's serial number or other identification number.
3. Identification of funding source.
4. Acquisition date and unit cost.
5. Source of items, such as company name.
6. Percentage of federal funds used in the purchase.
7. Present location, use, condition of item, and date information was reported.
8. Pertinent information on the ultimate transfer, replacement or disposition of the item and sale price of the property.

Inventory will be updated as items are sold, lost, stolen, or cannot be repaired and new items are purchased.

Physical Inventory -

Physical inventory of property will be completed by designated district staff in accordance with applicable federal law and regulation and board policy DIC.

The physical inventory of items will be conducted annually, and the results will be reconciled with the inventory records and reported to the federal awarding agency.

Maintenance -

The district establishes adequate maintenance procedures to ensure that property is maintained in good condition in accordance with law, regulation, and board policy.

Safeguards -

The district ensures that adequate safeguards are in place to prevent loss, damage, or theft of property:

1. Any loss, damage or theft will be reported to the { } *Superintendent*, investigated and fully documented, and may be reported to local law enforcement.
2. If stolen items are not recovered, the district will submit copies of the investigative report and insurance claim to the federal awarding agency.
3. The district may be responsible for replacing or repairing lost, damaged, destroyed, or stolen items.
4. Replaced equipment is property of the originally funded program and should be inventoried accordingly.
5. District property may only be loaned in accordance with board policy KGA and administrative regulations and procedures.

Disposition of Property Acquired with Federal Funds –

When the district determines that real property, including land, land improvements, structures, and accessories thereto, acquired under a federal award is no longer needed for the originally authorized purpose, the district must obtain disposition instructions from the federal awarding agency or pass-through entity administering the program, in accordance with applicable law and regulations. (2 CFR Sec. 200.311)

When the district determines that equipment or supplies acquired under a federal award are no longer needed for the original project or program or for other activities currently or previously supported by a federal awarding agency, the { } *Superintendent* will contact the federal awarding agency or pass-through entity administering the program to obtain disposition instructions, based on the fair market value of the equipment or supplies.

Generally, items with a fair market value of \$5,000 or less that are no longer effective may be retained, sold, purged, or transferred to the district. For items with a fair market value greater than \$5,000, the federal awarding agency is entitled to the federal share of the current market value or sales proceeds.

If the district will be replacing the equipment or supplies, the district may use the existing equipment or supplies as a trade-in or sell the property and use the proceeds to offset the cost of the replacement property.

The { } *Superintendent* will be responsible for contacting the federal awarding agency and determining the process for disposition of equipment or supplies.

The district may use the following methods in disposing of unnecessary equipment or supplies acquired with federal funds:

{ } *Public auction and/or online sale – generally conducted by a licensed auctioneer.*

{ } *Salvage – scrap sold to local dealers.*

{ } *Negotiated sale – normally used when disposing of items of substantial value.*

{ } *Sealed bid – normally used for items of substantial value or unique qualities.*

{ } *Pre-priced sale – large quantities of obsolete or surplus equipment or supplies may be sold by this method.*

{ } *Donation to charitable organizations, for equipment or supplies with little to no value.*

{ } *Disposition to trash for equipment or supplies with no value.*

The { } *Superintendent* will be responsible for maintaining records of obsolete and surplus property disposed of, and will report to the federal awarding agency when required.

GARI FAMILY AND MEDICAL LEAVE PLAN

(Remove this page from the policy book)

SAMPLE: FAMILY AND MEDICAL LEAVE PLAN

Family and medical leave as required by federal law shall be granted for a period of up to 12 weeks during a 12-month period. For purposes of this policy, a 12-month period shall be defined as a fiscal year beginning on July 1 and ending the following June 30. Spouses who are eligible for FMLA leave and are both employed by the district may be limited to a combined total of 12 weeks of leave during any 12-month period if the leave is taken for birth of the employee's son or daughter or to care for the child after birth, for placement of a son or daughter with the employee for adoption or foster care or to care for the child after placement, or to care for the employee's parent with a serious health condition.

Leave is available for the following:

- (1) the birth of a son or daughter of the employee and to care for the newborn child;
- (2) the placement of a son or daughter with the employee for adoption or foster care and to care for the newly placed child;
- (3) to allow the employee to care for the employee's spouse, son, daughter, or parent with a serious health condition;
- (4) a serious health condition of the employee that makes the employee unable to perform the functions of his or her job;
- (5) any qualifying exigency arising out of the fact that the employee's spouse, son, daughter, or parent is a covered military member on active duty (or has been notified of an impending call or order to achieve active duty) in support of a contingency operation; and
- (6) the need to care for a covered service member with a serious injury or illness if the employee is the spouse, son, daughter, parent, or next of kin of the service member. Eligible employees are, for reason (6) only, entitled to a combined total of 26 workweeks of leave during a 12-month period.

This leave shall normally be unpaid leave. However, if the employee has any paid vacation, personal, or sick leave that is available for use because of the reason for the leave, the paid leave shall be used concurrently with the annual family and medical leave. The superintendent will notify the employee of the beginning date of family and medical leave and the amount of the employee's accrued paid leave designated as family and medical leave.

The employee is eligible for family and medical leave if he or she has been employed by the district for at least 12 months and has worked at least 1,250 hours during the 12-month period immediately preceding the commencement of the FMLA leave.

During the period of any unpaid family and medical leave, the board shall continue to pay the employer's share of the cost of group health benefits in the same manner as paid immediately prior to the leave. Any employee portion of the

GARI FAMILY AND MEDICAL LEAVE PLAN

cost shall be paid by the employee to the clerk of the board on the payroll date or other time as the employee and superintendent may agree prior to the commencement of the leave. The board may terminate group health coverage if the employee's portion of the payment is not received within 30 days of the due date, so long as written notice of the delinquency in payment and the notice of intent to terminate coverage are sent at least 15 days prior to the termination.

When leave is foreseeable, the employee shall give written notice 30 days in advance. If leave is not foreseeable, notice will be given as soon as is practicable.

Upon the employee providing notice of need for leave, the employer will notify the employee of the following within 5 business days, absent extenuating circumstances:

- a. whether or not the employee is eligible for FMLA leave, and the reasons that leave will or will not count as family and medical leave;
- b. any requirements for medical certification;
- c. employer requirement of substituting paid leave;
- d. requirements for premium payments for health benefits and employee responsibility for repayment if employer pays employee share;
- e. right to be restored to same or equivalent job; and
- f. any employer required fitness-for-duty certifications.

The superintendent may require an instructional employee to continue leave until the end of a semester if the leave begins more than five (5) weeks before the end of a semester, lasts more than three (3) weeks and the return would occur during the last three (3) weeks of the semester.

Leave for reason 1 or 2 must be taken within 12 months of the date of birth or placement of the child. Family leave for reasons 1 or 2 may not be used intermittently or on a part-time basis without the prior approval of the superintendent.

If the leave is for a reason other than the employee's serious health conditions or for a qualifying exigency as described in section (5) above, the superintendent may require an instructional employee to continue leave until the end of a semester, if:

1. the leave begins in the last five (5) weeks of a semester, will last more than two (2) weeks and the return to work would occur in the last two (2) weeks of a semester, or
2. the leave begins in the last three (3) weeks of a semester, and lasts more than five (5) days.

 2. monitor the online activities of students while at school, at school sponsored activities, or while utilizing the district's network, computer system, computers, e-mail system, or electronic devices having access to the Internet;
 3. address issues related to the safety of students when using e-mail, chat rooms, and other electronic communication;

harmful material given the age and maturity levels of district students. It is the district's goal to implement and enforce technology protection measures under this plan in such a way as to ensure no minor has access to visual depictions that are child pornography, harmful to minors, or obscene.

Subject to administrative approval, technology protection measures may be minimized only for bonafide research or other lawful purposes that are closely monitored by district staff.

Inappropriate Network Usage

To the extent practicable, steps shall be taken to promote the safety and security of users of the district's online computer network when using electronic mail, chat rooms, instant messaging, and other forms of direct electronic communications.

Specifically, in accordance with CIPA, measures to prevent inappropriate network usage shall include frequent monitoring of the District's network, computer systems, and equipment to detect any unauthorized access to prohibited materials as described earlier in this plan, hacking, and other unlawful activities by students or staff members. Such monitoring shall also strive to detect unauthorized disclosure, use, and dissemination of personally identifiable information regarding students.

Education, Supervision and Monitoring

It shall be the responsibility of all members of the District's staff to educate, supervise, and monitor appropriate usage of online computer network access to the internet in accordance with this policy and CIPA. If, during the course of such monitoring, a student or staff member discovers a violation of this policy, the student or staff member shall make a report as follows:

IIBGA CHILDREN'S INTERNET PROTECTION PLAN

- Students shall report suspected violation of this policy to any classroom teacher.
- Staff members shall report suspected violations of this policy to their immediate supervisor when possible.

JBCB FOSTER CARE STUDENT REGULATIONS

Foster Care Student Regulations To Aid In Implementation of Federal Law

NOTE: This document **MUST** be approved by board action to become policy. File with clerk, distribute to principals, and duplicate as necessary in district newsletters and other documents.

The Every Student Succeeds Act (“ESSA”) addresses additional protections for students in foster care and establishes a system of joint responsibility for school districts, the Kansas State Department of Education (“KSDE”), and the Kansas Department for Children and Families (“DCF”) to ensure the educational stability of students in foster care.

For the purposes of these regulations, “foster care” means 24-hour substitute care for children placed away from their parents and for whom a child welfare agency has placement and care duties. This includes, but is not limited to, placements in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, child-care institutions, and pre-adoptive homes.

Transportation of Students in Foster Care

ESSA requires each Kansas school district to collaborate with child welfare agencies, such as DCF and tribal child welfare agencies, to develop and implement clear, written procedures for how transportation to maintain a student in foster care in his or her school of origin (when in the student’s best interest) will be provided, arranged, and funded. The procedures must ensure that the transportation will be provided promptly, in a cost-effective manner, and in accordance with federal law. Also, they must address how additional costs will

JBCB FOSTER CARE STUDENT REGULATIONS

be absorbed. Therefore, if there are any additional costs incurred to maintain a foster care student in his or her school of origin, the district will provide the transportation if:

1. DCF agrees to reimburse the district for the additional costs;
2. The district agrees to pay the additional costs; or
3. DCF and the district split the additional costs.

Upon request, the district will provide an assurance to KSDE that the district has transportation procedures meeting the above requirements.

Additional Costs

“Additional costs” reflect the difference between what the district would spend to transport a student to the assigned school and the cost of transporting a student in foster care to his or her school of origin. Title I, Part A funds may be used to pay for additional transportation costs in Title I districts.

School of Origin

The “school of origin” is the school in which a student is enrolled at the time of placement in foster care or of a change in placement. A student in foster care is entitled to remain enrolled in his or her school of origin unless it is determined not to be in the student’s best interest to stay at that school.

Best-Interest Determination

DCF will make the final decision regarding whether it is in a student’s best interest to remain in the school of origin. District staff may be asked to provide information on the “educational best interest” of the student to support educational decision-making based on what is best for the student academically. For students receiving special education and related services under the Individual with Disabilities Education Act or for students on Section 504 accommodation plans, it is recommended that relevant team members should be consulted in the

JBCB FOSTER CARE STUDENT REGULATIONS

best interest determination process, as the district will still be required to ensure compliance with Least Restrictive Environment requirements.

The United States Department of Education has provided a list of factors that may be considered in determining the student's educational best interest, which include appropriateness of the current setting, proximity of placement to school attendance centers, the child's preference, the parents' preference, the child's attachment to the school of origin, where siblings will be placed, and the availability of needed services. The "best-interest determination" may not be made based on transportation costs or funding.

District Foster Care Liaison

The "district foster care liaison" is a district employee who facilitates the enrollment in or transfer to a public school of a student in the district who is a ward of the state. The district's foster care liaison is considered the designated point of contact for collaboration with DCF on transportation procedures.

The District has designated the following staff person as the District foster care liaison:

Name:

Position:

E-mail:

Address:

Telephone:

JBCB FOSTER CARE STUDENT REGULATIONS

Child Welfare Agency

In Kansas, DCF is the regular child welfare agency for collaboration on transportation procedures. The Child Protective Services (“CPS”) division of DCF will typically be the division that works with the district on issues related to students in foster care, however, tribal child welfare agencies may also be involved with this process. Therefore, whenever DCF is used in these regulations, it may be deemed to apply to any child welfare agency based on the circumstances.

Child Welfare Contact

The district, if receiving Title I, Part A funds, must collaborate on transportation procedures with the DCF-designated contact if DCF notifies the district in writing that DCF has designated an employee to serve as a point of contact for the district.

JBCB FOSTER CARE STUDENT REGULATIONS

General Transportation Procedures (OPTIONAL)

To ensure that transportation is provided promptly when it is determined to be in the best interest of a student in foster care to remain in the school of origin, the district has developed the following transportation procedures. These procedures will guide the development of an individual transportation plan for a student needing transportation to his or her school of origin.

Funding Strategies

The district and DCF have identified the following funding options that may be implemented if additional costs to transport a student in foster care to the school of origin are determined:

(Adjust the items below to include those agreed upon by the district and DCF. Consider any cost-sharing strategies that the district has used successfully with neighboring districts in transporting students who are homeless to and from their school of origin or any other programs where transportation costs are shared.)

- 1. Cost sharing between the district and DCF through use of a specific transportation strategy in which each party is responsible for a segment of the transportation;*
- 2. Offset of costs by DCF, such as using Title IV-E funds paid to a foster parent or caregiver for transportation;*
- 3. Cost sharing between the school district of attendance and the school district where the student is living;*
- 4. Use of the district's Title I funds;*
- 5. Use of Medicaid reimbursements if the IEP for a student receiving special education services will include transportation as a related service;*
- 6. Use of any available grant funds; and*

JCBF FOSTER CARE STUDENT REGULATIONS

7. *[Other].*

Transportation Strategies

The following transportation strategies may be considered in achieving transportation to a student's school of origin:

(Adjust the items below to include those agreed upon by the district and DCF. Consider any strategies that have been used successfully to transport students who are homeless to and from their school of origin and effective practices currently used to share transportation costs with neighboring districts, community partners, or others.)

- 1. Arranging transportation by the foster parent or caregiver to the school of origin or to a bus stop on a route to the school of origin, such as when the foster parent lives within a certain distance from the school of origin;*
- 2. Arranging transportation by a relative or another adult approved by DCF with whom the student has a relationship and whose existing commute aligns with the student's transportation need to the school of origin or a bus stop on a route to the school of origin;*
- 3. Maximizing the existing district transportation system by exploring ways the student can be transported to an existing bus stop that serves the school of origin (options to transport the student to an existing bus stop could occur through use of public transportation with a bus pass or transportation voucher, or transportation by the foster parent or caregiver, a relative, or another adult with whom the student has a relationship);*
- 4. Using existing intradistrict transportation options that allow students to be transported within the district, such as routes for*

JBCB FOSTER CARE STUDENT REGULATIONS

- students who are homeless, students attending magnet programs, or students receiving special education services (this option may require the addition of a bus stop on an existing route or that an existing route be rerouted to accommodate the transportation needs);*
5. *Coordinating with the district in which the student is living to provide transportation to the district boundaries or an existing bus stop within the district;*
 6. *Evaluating whether an IEP for a student receiving special education services will include transportation to the student's special education program at the school of origin as a related service;*
 7. *Contracting with a private transportation company, such as a taxi service, for the student's transportation needs;*
 8. *Using public transportation with a bus pass or transportation voucher;*
 9. *Adding a district transportation route; or*
 10. *[Other].*

Individual Transportation Plan

When DCF determines that the best interest of a student in foster care is to remain in the school of origin, the district foster care liaison will take steps to promptly collaborate with relevant DCF staff on how transportation to the school of origin will be provided, arranged, and funded.

When possible, and to allow for adequate consideration of the student's needs, individual transportation planning will begin in advance of placement changes and will occur in coordination with the consultation on the student's educational best interest.

JCBF FOSTER CARE STUDENT REGULATIONS

The district foster care liaison will convene a meeting to establish an individualized transportation plan for the student. The liaison will attempt to include the student's DCF education decision-maker and others who may be involved in education decision-making for the student, such as the student's caseworker, foster parent or caregiver, and the court-appointed special advocate (CASA) liaison. The District foster care liaison may also involve other district staff, as appropriate. The liaison will involve the district transportation director if the individual transportation plan will involve adjustments to existing bus routes.

If necessary, the district foster care liaison will identify a short-term transportation strategy that may be used until the final transportation plan is completed so that the student can remain at the school of origin without interruption.

In evaluating transportation options to the school of origin, participants will prioritize student safety, cost effectiveness, reliability, and time and distance of the commute.

Determining Additional Costs

To identify whether additional costs will be incurred in an individual transportation plan to transport the student to the school of origin, the foster care liaison will consult with the district transportation director to calculate the cost of transporting the student to the school that the student would otherwise attend, which will be used as a comparison. In accordance with the federal Non-Regulatory Guidance, if the district is able to provide transportation through an established bus route, there are no additional costs. If the district will reroute buses or provide transportation through a private vehicle or transportation company, the district may consider as additional costs the cost of rerouting buses

JBCB FOSTER CARE STUDENT REGULATIONS

or the difference between the special transportation costs and the usual transportation costs.

Administrative costs, such as additional staff time to coordinate transportation, will also be considered in determining whether there are additional costs to transport the student in foster care to the school of origin.

Plan Elements

The individual transportation plan may include:

- 1. A daily transportation strategy;*
- 2. One or more backup transportation strategies;*
- 3. Transportation strategies to allow participation in after-school and extracurricular activities;*
- 4. A description of the funding strategy that will be used if additional costs to transport the student to the school of origin are identified;*
- 5. Identification of who is responsible for each aspect of the transportation strategy;*
- 6. Designation of an adult to accompany younger students, if necessary, such as when public transportation is used;*
- 7. For transportation strategies with multiple segments, sign off procedures to ensure that the student safely and successfully completes each segment;*
- 8. A communication protocol between the District and DCF when transportation for a student is no longer needed; and*
- 9. A regular review process for adjusting transportation strategies when circumstances change.*

The final individual transportation plan will require a signature by the foster care liaison and a district official who has authority to approve any

JCB FOSTER CARE STUDENT REGULATIONS

additional expenditure. The DCF education decision-maker and the foster parent or caregiver, if different from the education decision-maker, will also be asked to sign the plan.

JDDC SHORT MODEL BULLYING PLAN

USD 350 Bullying Plan

(Also see Policies GAAE and JDDC)

Bullying means: Any intentional gesture or any intentional written, verbal, electronic, or physical act or threat either by any student, staff member, or parent towards a student or by any student, staff member or parent towards a staff member that is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment that a reasonable person, under the circumstances, knows or should know will have the effect of:

- a. Harming a student or staff member, whether physically or mentally;
- b. Damaging a student's or staff member's property;
- c. Placing a student or staff member in reasonable fear of harm; or
- d. Placing a student or staff member in reasonable fear of damage to the student's or staff member's property.

Bullying also includes cyberbullying. "Cyberbullying" means bullying by use of any electronic communication device through means including, but not limited to, e-mail, instant messaging, text messages, blogs, mobile phones, pagers, online games, and websites.

Additionally, bullying means any form of intimidation or harassment prohibited by the board of education of the school district in policies concerning bullying adopted pursuant to K.S.A. 72-6147 or subsection (e) of K.S.A. 72-1138, and amendments thereto. USD 350 will not tolerate these actions by students, staff, or parents.

For the purposes of this plan and its authorizing policies, "parent" includes a biological, adoptive, or step-parent; guardian; custodian; or other person with authority to act on behalf of a student.

Similarly, a "staff member" means any person employed by the district.

Any act of bullying by either an individual student or group of students towards a student or staff member of the district is prohibited on or while utilizing school property, in a school vehicle, or at school-sponsored activities, programs, and events. This policy applies to students who directly engage in an act of bullying, to students who, by their behavior, support another student's act of bullying, and to all staff members and parents who engage in similar behaviors.

JDDC SHORT MODEL BULLYING PLAN

Training concerning identifying, reporting, investigating, and preventing bullying behaviors as outlined in district policies and this plan shall be provided to students and staff members using district resources available for such purpose and shall be provided through school assemblies, staff development, or other appropriate forums at least {annually/biannually}.

The board or the district administration on behalf of the board may seek student, staff, parent, and/or community input on the adoption, revision, and/or implementation of the board's bullying policies or plan as directed or approved by the board.

No teacher, administrator, or school district employee shall engage in, permit, or tolerate bullying.

Retaliation against a victim, good faith reporter, or a witness to bullying is prohibited. A student or staff member who engages in an act of bullying, reprisal, retaliation or false reporting of bullying, shall be subject to discipline in accordance with school district policy and procedures. The school administration and/or board may take into account the following factors when determining an appropriate disciplinary action for such prohibited conduct: the ages of the parties involved; the developmental and maturity levels, special education needs of the parties involved, and the severity of the behavior.

Discipline guidelines for student bullying may be found in student and employee handbooks. Offenses over time or single offenses which are severe in nature may result in discipline up to and including suspension and/or expulsion or termination from employment. Parents participating in prohibited bullying conduct aimed at district students and/or staff members may jeopardize their access to district facilities; district property; school sponsored activities, programs, and events; and/or district students and/or staff members through the district's communication systems. As appropriate, reports to local law enforcement will be filed to report criminal bullying behaviors. (See Policies EBC, GAAC, GAACA, JGEC, JGECA and KN)

KG FACILITY USE LANGUAGE AND FORMS

Use of Facilities By Outside Agencies and Groups

Recreation Commission

The school buildings are available at no charge to the USD 350 Recreation Commission for recreation on weekends, evenings, and during the summer months. Availability is dependent upon use of specific facilities for scheduled school-related activities. Continued availability of the school buildings for recreational purposes is dependent upon the acceptance of responsibility by those using the school facilities to maintain facilities and pay any appropriate fees.

Facility Fees

Reservations for using facilities and/or buildings are made through the building principal. Prior Board of Education approval is necessary for activities requiring a lease or for athletic events requesting the use of the gym. Activities requiring the presence of custodians and/or kitchen employees will be charged an additional fee. All commercial uses of the facilities or building by "for profit" organizations must have Board approval. The Board of Education may waive any or all of the rental fees for a particular group. Local student groups with an adult sponsor requesting to use gym facilities will not be required to pay rental fees. Continued use of the facility will depend upon the student groups maintaining requested areas and accepting the responsibility for use of the requested facilities. Rates may be changed at any regular Board of Education meeting.

Fees by class * Class I and Class II

- Class I: No use fees assessed, but decision to assess utility, custodial, or kitchen staff fees will be made by the superintendent (typically groups or organizations made up of at least 75% district school staff and/or youth are considered to fall under this classification.
